 **CHANGING
FOR THE FUTURE**

Helping you recycle more

Thank you for recycling your household waste. With your help the recycling rate in Dundee is approaching 40%.

However, we could be doing more to help meet Scotland's ambitious targets of recycling 70% of waste by 2025.

Your recycling is really making a difference.
Thank you!

Changes to your waste collection service

This leaflet provides you with important information on what changes are being made to your waste collection service and how to use it.

In line with many other Local Authorities, we are making these changes as part of our commitment to the Scottish Government's Household Recycling Charter, which aims to make waste collection systems across Scotland more consistent and achieve a greater value from recycling by improving material quality.

Frequently asked questions...

Why are these changes being introduced?

Dundee City Council is introducing these changes as part of our commitment to the Scottish Government's Charter for Household Recycling in Scotland. The Charter aims to increase the quality of materials collected for recycling by ensuring that different types of material are collected separately wherever possible. These changes will make it easier for households to recycle and align waste collection systems across both Dundee and Scotland.

What type of communal bins will I be receiving?

We have included a letter with this leaflet explaining the type of bins your property will use for your household waste and recycling.

What if I have extra waste that won't fit in my bin?

If you have extra waste or recycling you can take it, free of charge, to one of Dundee's recycling centres at Baldovie and Riverside, please see p15 of this leaflet for more details. Or make use of the Special Uplift service (charges apply) - call 01382 436238 for details. Communal eurobins should only be used for household waste & should NOT be used for electrical items, furniture or large, bulky items.

Will my assisted collection service still be available?

If you already have an assisted collection for your grey, blue and burgundy bins, this service will continue. If everyone in the household is over 70, or has a disability, they can request an assisted collection by contacting us on 01382 434300.

Your household waste recycling centres

Dundee has two Recycling Centres to allow you to recycle a wide range of materials.

Please ensure that all recyclable material is separated before you visit the site. Staff are on site to offer advice and direct you to the correct container.

Unwanted furniture and other household items which can be repaired can also be donated for re-use at the Re-Use Hub at Baldovie Recycling Centre.

Opening times may vary during Summer and Winter months. Please check opening times for your nearest Recycling Centre by contacting:
