

Everything here

can go in here

Your new food waste containers will be delivered in August and collections start in September.

Food waste recycling trial - coming soon to your area

Thank you for helping Dundee to remain the best city authority in Scotland for recycling. In 2009/10 we recycled and composted 40.1% of our waste.

However there is still more to do - we need to recycle and compost 50% of all household waste by 2013 and 70% by 2025. To help us to achieve this we are giving you the opportunity to take part in a new 12 month food waste recycling kerbside collection scheme.

- **During August you will be provided with a kitchen caddy and a supply of compostable caddy liners. You will also receive a compact kerbside food waste container to present on collection day.**
- **A detailed information leaflet including collection dates will be delivered to you along with the containers.**
- **All your food waste can go into the lined kitchen caddy and once this is full the liner should be tied and placed into the kerbside food waste container.**
- **Collections of food waste will start in September 2011.**

We hope you will take part in this trial and help us to recycle more materials more often.

If you DO NOT wish to take part in the trial you can OPT OUT by contacting us no later than Friday 12th August 2011 using the phone number or e-mail address below.

Please contact us for more information about the trial or to opt out:
