Dear Sir/Madam

Tenant safety is our first priority and as you know we wrote to you again on 28 June 2017 updating you on the cladding systems on our multi-storeys in Dundee. The systems meet the required safety standards and none of our multis have the same cladding systems or materials used in Grenfell Tower.

Although the cladding system on Dudhope meets all the required safety standards because the refurbishment work was done many years ago, as an additional measure to further re-assure all tenants of the safety of the block, on Tuesday 27 June 2017 a cladding panel was removed and a sample of the insulation material was taken to be sent for analysis. The sample of insulation was analysed and confirmed to be mineral wool. This has been independently verified as non-combustible.

We held the first of the drop-in sessions at Dudhope Court on Thursday, 29 June 2017 and thank those who attended to discuss their issues.

We would remind you that free fire safety visits by the Scottish Fire and Rescue Service are available on request by telephoning 0800 0731 999 or by texting 'FIRE' to 80800.

We will continue to keep you informed of any further developments.

Yours faithfully

Elaine Zwirlein
