

## **12 SURPLUS PROPERTY (AN113-2003)**

Following approval of the Dundee and Angus Structure Plan 2002 a full review is being undertaken of property and land previously held on Planning and Transportation's account which was associated with the now abandoned North East and North West Arterial Plans developed by the former Roads Authority, Tayside Regional Council.

Whilst the major review will be the subject of a future report to this Committee a property at 14 Rankine Street, Dundee has been identified as no longer required for any "Roads" schemes and as such is declared surplus to the Planning and Transportation Department's needs. This property will be transferred to the Economic Development Department for their consideration.
