

4 PURCHASE OF END OF LEASE VEHICLES (AN161-2007)

The Committee is advised that the Chief Executive approved the purchase of 20 vehicles all of which had run full lease period, and were made available for sale. The cost of purchase from the lease company totalled £88,340. The vehicles were all well maintained and are in good order and will be able to provide a further year's service. On completion of the further service period, the vehicles can be put to auction and all receipts will contribute towards the department's vehicle purchase budget for 2008/09. This option is the most cost effective for the department.
