

(b) CUBICLE ADAPTATIONS (AN376-2006)

In order to continue to develop and meet the needs of disabled persons it is proposed that specific cubicles are created at Olympia for those persons with profound or complex needs. The creation of the facility will assist the convenience of person with disabilities and add to the existing portfolio of facilities at the Olympia.

A quotation of £6,300 was received from Dundee Contract Services for the works. There is an allowance within the Leisure and Communities Capital Budget for the works.

It is recommended that the quotation is accepted.
