

## 10 PROPOSED NEW STREET NAMES (AN4-2009)

The Committee is asked to approve the undernoted new street name:-

Proposed Name	Ward	Location	Background
The Junipers	North East	Berwick Drive to the west	To keep links with the existing tree theme in the area

In addition, Committee approval is sought to re-introduce two historic street names which were removed from the street register some time ago.

The streets in question are:-

- Mid Kirk Style; and
- Tally Street.

These street names were removed as part of the first Overgate redevelopment, however, the streets have remained in place around the City Churches.

An enquiry was recently received as to why these names were no longer in use although the streets are still in place, albeit slightly altered in alignment.

No rational reasoning could be found as to why the names had been removed from the street register. Therefore, it is felt that to keep the historical links in this area, the street names should be reinstated.
