| Actual Spend to 31 July 2014 | $\underline{\underline{5,530}}$ | $\underline{\underline{3,540}}$ |

An explanation of the major variances since the capital plan was approved at Committee is shown in Section 5 of the report. In terms of the percentage of actual capital spend to projected outturn, General Services and Housing HRA Capital as at 31 July 2014 were $13 \%$ and $17 \%$ respectively, compared with $27 \%$ and $27 \%$ respectively for the comparable period to 31 July 2013.

## 4 BACKGROUND

4.1 The Special Policy \& Resources Committee of 13 February 2014 approved the 2014/15 Capital Budget for General Services (Report 59-2014). The Capital Plan 2014-2019 is split into the key areas of asset ownership (excluding Council Housing which is dealt with in Housing HRA Capital Plan 20142019) and projects included in the Capital Plan 2014-19 are derived from the need to match the asset portfolio with service delivery needs and priorities. The capital programme is being monitored in conjunction with the asset managers.

The Housing HRA Capital Programme 2014/15 was approved at the Policy \& Resources Committee on 27 January 2014 (Report 20-2014). The Housing HRA Capital Budget reflects information contained in Scottish Housing Quality Standard submission.
4.2 Local Authorities from 1 April 2004 are required, by Regulation, to comply with the Prudential Code under Part 7 of the Local Government Act 2003. The Capital Budget for 2014/15 is being monitored within the framework of the Prudential Code.
4.3 The Capital Monitoring report provides detailed information on individual projects contained within the Capital Budget and the impact of expenditure movements on future financial years.
5.1 Appendix 2 details the actual spend and the latest projected outturns for all projects, detailed by asset portfolios/departments. Appendix 1 summarises this information and shows the latest projection of capital resources required to finance the expenditure.

The latest capital monitoring statement shows a Revised Budget for 2014/15 of £44.224m, a decrease of $£ 29,000$ since last months capital monitoring report.
5.1.2 Borrowing has increased by $£ 2.663$ since last months capital monitoring report because of a decrease of $£ 2.692 \mathrm{~m}$ in the General Capital Grant within the year. This is due to the capital grant funding being used to supplement the 2013/14 programme, thereby reducing borrowing in 2013/14. Over the two years the effect of borrowing is therefore nil.
5.2 Capital Resources
5.2.1 The table below shows the latest position:-

|  | Approved <br> Budget | Rdjustments | Revised <br> Budget | Projected <br> Outturn | Variance <br> A000 |
| :--- | :---: | :---: | :---: | :---: | :---: |
| General Capital Grant | $\mathbf{£ 0 0 0}$ | $\mathbf{£ 0 0 0}$ | $\mathbf{£ 0 0 0}$ | $\mathbf{£ 0 0 0}$ | $\mathbf{£ 0 0 0}$ |
| Capital Receipts/Capital Fund | 17,182 | $(2,692)$ | 14,490 | 14,490 | - |
| Borrowing | 1,000 | - | 1,000 | 1,000 | - |
|  | $\underline{20,872}$ | $\underline{7,862}$ | $\underline{28,734}$ | $\underline{28,734}$ | - |

5.2.2 The revised budget for General Capital Grant is $£ 14.490 \mathrm{~m}$, a reduction of $£ 2.692 \mathrm{~m}$. This is due to the transfer of capital grant to the V\&A at Dundee project in 2014/15. In 2013/14 there was a corresponding increase in General Capital Grant of $£ 2.692 \mathrm{~m}$ as a result of their being an underspend on the V\&A at Dundee Project. This underspend was transferred to fund other Capital Projects in 2013/14, on the understanding that this would be transferred back to the V\&A project in 2014/15.
5.2.3 The revised budget for Borrowing is $£ 28.734$ m, an increase of $£ 2.663 \mathrm{~m}$ since last months monitoring report. This is due to the reason detailed above in para 5.2.2.
5.3 The table below shows the effect of 2014/15 adjustments on future years and how these adjustments are financed.

5.4 Projected capital expenditure as a percentage of projected capital resources is currently standing at 100\%.

## 6 HOUSING HRA - CURRENT POSITION

6.1 Appendix 2 details the actual spend and the latest projected outturns within Housing HRA Capital Programme. Appendix 1 summarises this information and shows the latest projection of capital resources required to finance the expenditure.

The latest capital monitoring statement shows a Projected Outturn of $£ 20.266 \mathrm{~m}$, an increase in projected expenditure of $£ 391,000$ since last months report. The main reasons for this are detailed below.
6.1.1 Demolitions - Mill o Mains Phase 3 programme has been added into this financial year and has a projected cost of £260,000.
6.1.2 Heating, Kitchens and Bathrooms - Kinghorne Road/Strathmartine Road projected expenditure has increased by $£ 66,000$ due to additional works within the programme including replacing radiators and rewiring.
6.1.3 Heating, Kitchens and Bathrooms - Craigie Street Sheltered projected expenditure has increased by $£ 41,000$ to reflect cost of an additional 76 boilers within the programme.
6.2 Projected capital expenditure as a percentage of projected capital resources is currently standing at $113 \%$. This variance between expenditure and resources will be met by slippage throughout the year.

## 7 RISK ASSESSMENT

7.1 There are a number of risks which may have an impact on the Capital Expenditure programme for 2014/15. The main areas of risk are set out below, together with the mechanisms in place to help mitigate these risks.
7.2 Currently, building cost inflation levels are low, however, they can on occasion be relatively high in comparison to general inflation. Therefore delays in scheduling and letting contracts may lead to increases in projected costs. In such an event, every effort will be made to ensure delays are avoided wherever possible and any increase in costs minimised.
7.3 Slippage in the Capital programme leads to the need to reschedule projects in the current year and possibly future years, therefore creating problems in delivering the programme on time. For this reason the programme is carefully monitored and any potential slippage is identified as soon as possible and any corrective action taken.
7.4 Capital projects can be subject to unforeseen price increases. The nature of building projects is such that additional unexpected costs can occur. The Council is currently experiencing very competitive tenders. Contingencies are built into the budget for each capital project and these will be closely monitored throughout the project.
7.5 There is risk associated with projects that are not yet legally committed as the works are not yet tendered for, and there is potential for costs to be greater that the allowance contained within the Capital Plan. As the majority of spend on these projects is in future years, the risk in the current year is not significant. Future years' Capital Programmes will be adjusted to reflect updated cost estimates.
7.6 The accurate projection of the value and timing of capital receipts from asset sales is difficult in the current economic climate. There is therefore a risk that the level of capital receipts assumed in the financing of the capital programme will not be achieved. In preparing the capital plan the Council has budgeted for a low level of Capital receipts being achieved. The Council has a Capital Fund which can be used to cover any shortfall, in the short-term, in the level of receipts required. Similarly, additional borrowing can be used to cover any temporary shortfalls in capital receipts.
7.7 The amount and timing of capital receipts can also be difficult to accurately project as sales are often conditional on planning permission and other non-financial factors. This is the case even in times of relative economic stability.
7.8 General Capital Grant is received from Scottish Government via the Local Government Finance Settlement each year. The level of Grant for 2014/15 and 2015/16 has been announced. The officers are of the view that the projected capital grant assumed within the Capital Plan for 2016/17 and $2017 / 18$ is prudent.
7.9 Capital projects must be affordable in terms of their impact on the Council's Revenue Budget. The option appraisal process should ensure that the revenue impact of capital projects has been calculated and reflected in future years' Revenue Budgets.

8 POLICY IMPLICATIONS
8.1 This report has been screened for any policy implications in respect of Sustainability, Strategic Environmental Assessment, Anti-Poverty, and Equality Impact Assessment.

There are no major issues.
