REPORT TO: SUPERANNUATION INVESTMENT SUB-COMMITTEE

OF THE POLICY & RESOURCES COMMITTEE - 18 FEBRUARY 2008

REPORT ON: TAYSIDE SUPERAN NUATION FUNDS BUSINESS PLAN 2008/2009

REPORT BY: HEAD OF FINANCE

REPORT NO: 51-2008

1 PURPOSE OF REPORT

This report introduces the fifth annual business plan for the Tayside Superannuation Funds.

2 **RECOMMENDATION**

The Sub-Committee are asked to note the information within the report and to approve the 2008/09 Business Plan which applies to the administration and management of the Tayside Superannuation Fund and the Tayside Transport Superannuation Fund.

3 FINANCIAL IMPLICATIONS

The costs of the Treasury and Investment and Pensions Administration section are contained within the overall Finance Department Revenue Budget 2008/09. Investment manager fees are charged directly to the Funds, as are actuarial and investment consultancy costs.

4 INTRODUCTION

The "CIPFA Pension Panel Principles for Investment Decision Making in the Local Government Pension Scheme in the United Kingdom April 2002" suggests that as one of the means of achieving effective decision making an annual business plan for the pension fund should be prepared and submitted.

This plan is prepared for the Superannuation Funds as a whole. This is over and above individual Service Plans for both the Pensions Administration Section and the Treasury and Investment Section as part of the Finance Department's overall planning process.

The current plan will cover the period when the next full triennial valuation will be completed.

5 **POLICY IMPLICATIONS**

This report has been screened for any policy implications in respect of Sustainability, Strategic Environmental Assessment, Anti-Poverty, Equality Impact Assessment and Risk Management.

There are no major issues.

6 **CONSULTATIONS**

The Chief Executive, Depute Chief Executive (Support Services) and Depute Chief Executive (Finance) have been consulted in the preparation of this report.

TAYSIDE SUPERANNUATION FUNDS BUSINESS PLAN 2008/09

1 **INTRODUCTION**

In order to comply with "CIPFA Pension Panel Principles for Investment Decision Making in the Local Government Pension Scheme in the United Kingdom" Principle 1 - Effective Decision Making it is necessary that an annual business plan is prepared for the Funds. This document together with the Statement of Investment Principles will set out the investment philosophy and priorities for the Funds.

2 BACKGROUND

The Tayside Superannuation Fund and Tayside Transport Superannuation Fund are merged for investment management purposes but remain separate entities subject to separate actuarial valuations and each producing their own set of accounts. At 31 December 2007 the value of the merged Funds was approximately £1,700m.

Within Dundee City Council's Finance Department there are two sections with responsibility for the Superannuation Funds - Treasury and Investment and Pensions Administration. The structures of these sections are shown at Appendix 1. It should be noted that staff in the Treasury and Investment section have other duties outwith the Superannuation Fund.

The annual budget for 2008/09 for these sections is shown in Appendix 2.

3 **INVESTMENT MANAGERS**

As stated in the Statement of Investment Principles (SIP) the objective of the Fund is to be 100% funded and to that end individual performance targets are set for each manager. These are stated in the SIP. However, these targets can only influence the asset side of the valuation and the liability side also affects the funding level. This is considered more fully in the Funding Strategy Statement (FSS).

Given the different styles of the managers and the decision to diversify their investment strategies it is unrealistic to expect all managers to meet their targets each year. However they will continue to be monitored quarterly by the Superannuation Investment Sub-Committee to establish if they are performing satisfactorily.

4 FINANCIAL POSITION

Accounts for the year to 31 March 2007 are shown in Appendix 3. It is expected that the manager fees will increase as they are linked to the value of funds so will rise if funds increase.

Contributions to the Fund will increase as the employer contribution rate moves from 295% to 315%.

5 **PERFORMANCE MANAGEMENT**

Investment Performance Measurement will continue to be provided by Northern Trust, the Fund's custodian.

Investment and administration costs will continue to be benchmarked against national performance indicators and also against information collated by the CIPFA Scottish Branch Treasury Management Forum Pensions Sub-Group.

The Funds will also be subject to periodic review by both internal and external audit.

6 ACTUARIAL SERVICES

These have been provided from 1 July 2004 by Barnett Waddingham (previously Punter Southall), following a tendering exercise. The initial three year period was extended to an additional three year period from 1 July 2007. A full valuation of the Main Fund and Transport Fund will be undertaken at 31 March 2008. This will set the employer contribution rates for 2009/10, 2010/11 and 2011/12.

7 INVESTMENT CONSULTANCY

Investment advice continues to be provided by Hymans Robertson. This contract began on 1 July 2004 following a tendering exercise and was extended for an additional three year period from 1 July 2007. They provide an annual report to the Sub-Committee each November and attend quarterly meetings with fund managers and provide regular advice to the Council's Officers.

8 FUNDING STRATEGY STATEMENT

The third statements for the Funds have been produced following consultation with participating bodies and the actuary.

9 **KEY MEASURES AND TARGETS**

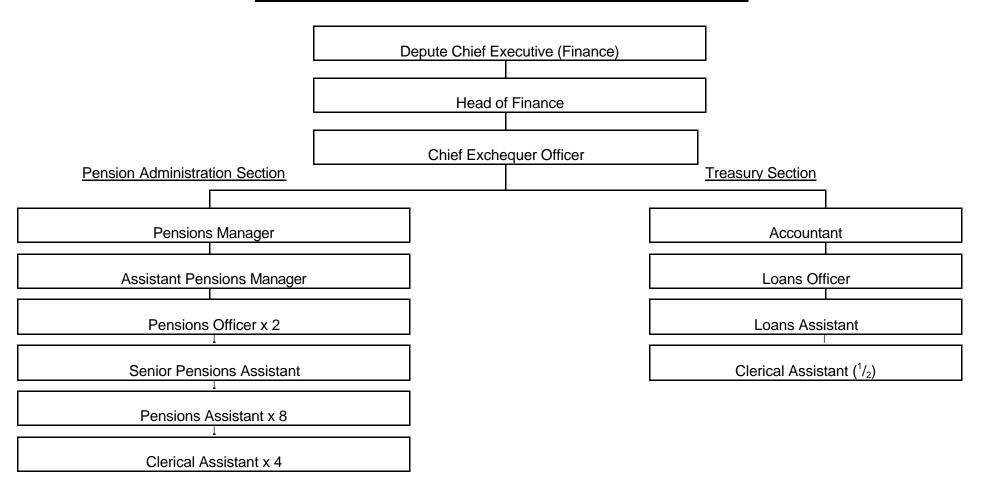

These are summarised in Appendix 4.

10 **ADMINISTRATION**

The administration section will continue to prepare for the revised Local Government Pension Scheme scheduled to start in April 2009.

It has recently been subject of a "lean service" review by the Employee Development Section of the Personnel Department. This confirmed that the internal processes within the Section worked very efficiently, although there were some backlogs caused by delays or errors in information being submitted to the Section.
