6 BACKGROUND

6.1 In December 1999 the Accounts Commission for Scotland published a report entitled Understanding our Business which "aims to improve understanding of the importance of management information and corporate management practices to the successful operation of DLO's". The report indicates that Councillors, as committee members, have a responsibility for the supervision and control of DLO's.

This report, along with other reports which are brought forward as necessary, contains information to assist Councillors in undertaking their responsibilities for the City Council's DLO.

6.2 In terms of the Local Government Planning and Land Act 1980 as amended by the Local Government Act 1988 and subsequent regulations, Local Authorities who undertake construction and maintenance work must produce separate Revenue Accounts for different categories of work unless exemptions apply.

Three Revenue Accounts are published by the City Council:-

- a Works of Maintenance
- b Construction Work below £50,000
- c Construction Work above £50,000

6.3 The legislation also requires DLO's to achieve an annual financial objective set by Scottish Ministers for each Revenue Account published. Monitoring the financial objectives are the subject of a separate joint report by the Chief Executive and Director of Finance which is presented to the DSO Committee on a quarterly basis.

7 OPERATIONAL PERFORMANCE FOR THE SIX MONTHS ENDED 30 SEPTEMBER 2002

7.1 Trading Results

The DLO's performance monitoring report for the six months ended 30 September 2002 is detailed in Appendix 1. The actual turnover for the period shows a reduction of some £105,620 on the corresponding period of last year. This is mainly due to a reduction in turnover on works of maintenance, and construction work over £50,000. Activity on Maintenance work has increased recently and it is anticipated that this trend will be sustained over the remaining months of the financial year. The department is anticipating that the volume of large contract work will increase over the forthcoming months.

The first six months trading results show the surplus at £253,901 compared to £520,217 for the six months ended 30 September 2001. The DLO has exceeded the financial requirements in each Revenue Account as defined by the Local Government Planning and Land Act 1980. These results reflect the DLO's commitment to continued improvement and the attainment of Best Value for the City Council's maintenance and construction projects.

The DLO continues to monitor and evaluate performance through monthly meetings of its Business Planning Group.

Based on the six months results the DLO will achieve its statutory financial objectives and meet the £565,000 surplus included in the City Council's approved 2002/2003 Revenue Budget.

7.2 Works of Maintenance

The programme of work during the period under review was sufficient to keep the workforce fully employed and it is anticipated that the current level of activity will be maintained throughout the remainder of the financial year.

The Gas and Lift Maintenance service programmes are on target and in addition, during the period April to September 2002 the workforce completed the following day-to-day repairs and planned maintenance work: -

<u>Description</u>	<u>Number</u>
Housing	
Responsive Repair Jobs including voids	39,700
Out of Hours Emergency Repair Jobs	5,856
External Cyclical Maintenance on Properties	1,852
Non Housing	
Responsive Repair Jobs	4,318
Out of Hours Emergency Repair Jobs	127
Housing Co-operatives	
Responsive Repair Jobs	2,210
Out of Hours Emergency Repair Jobs	325

7.3 **Construction Work above and below £50,000**

The volumes of major contract work undertaken during the review period were slightly below the anticipated level of activity. It is expected that this situation will improve over the next quarter as work gets underway on large contracts which have been awarded to the DLO in the early months of the financial year. This should ensure the workforce is fully employed.

During the period April to the end of September the following contracts were awarded to the DLO: -

<u>Description</u>	<u>Number</u>	<u>Total Value</u> £
Major Contracts	17	3,205,575
Minor Contracts	204	1,472,702

7.4 **Training**

The DLO's commitment to construction industry training is reflected by the recruitment of a further 11 new apprentices who began training during August 2002. This maintains the DLO's 10% tradesmen/apprenticeship ratio, which greatly surpasses the construction industry norm. Training and development of all employees is recognised by the department's management team as being critical to maintaining the organisation's success.

The department has been recognised for its commitment to training with accreditation to the prestigious Investors in People standard.

7.5 **Summary**

It is anticipated that the level of workforce will be sustained for the remainder of the financial year and the DLO achieve all the objectives set down in its Business Action Plan.
