1. TREASURY MANAGEMENT POLICY STATEMENT

Tayside Pension Fund is administered by Dundee City Council in accordance with Section 13 of its Financial Regulations. Investment policy and decisions (including those relating to Treasury Management) are delegated to the Pension Sub-Committee of the Policy and Resources Committee. The Pension Board assist the Sub-Committee with securing compliance to the regulations.

The primary objective of the Tayside Pension Fund is to provide for scheme members' pension and lump sum benefits on their retirement or for their dependants on death before or after retirement, on a defined benefits basis. There is limited discretion to vary these benefits.

Dundee City Council in its administering role, defines its treasury management activities as:

"The management of the authority's investments and cash flows, its banking, money market and capital market transactions; the effective control of the risks associated with those activities; and the pursuit of optimum performance consistent with those risks."

It regards the successful identification, monitoring and control of risk to be the prime criteria by which the effectiveness of its treasury management activities will be measured. Accordingly, the analysis and reporting of treasury management activities will focus on their risk implications for the organisation and any financial instruments entered into to manage these risks.

It acknowledges that effective treasury management will provide support towards the achievement of its business and services objectives. It is therefore committed to the principles of achieving value for money in treasury management and to employing suitable performance measurement techniques, within the context of effective risk management.

All treasury management activities must comply with the appropriate regulations, codes and guidance as stated in the Treasury Management Policy Statement of Dundee City Council.

2. DELEGATIONS OF AUTHORITY & GOVERNANCE

The scheme of delegation for treasury management of Tayside Pension Fund are in accordance with that for Dundee City Council and referred to in their Treasury Management Policy Statement

3. CREDIT WORTHINESS & PERMITTED COUNTERPARTIES

In undertaking treasury management for the Fund, the Council's investment priorities (as stated in their policy) will be security first, liquidity second and then return. The Council manage Credit Worthiness of counterparties in line with their own policy and the following are permitted Counterparties for investment transactions:

The Council will only use UK regulated institutions, with the maximum deposit will be in line with counterparty credit rating as follows:

Short Term Credit Rating**

- F1+ £10m
- F1 £5m
- AAAMf - Money Market Funds £10m
- Part-Nationalised UK Banks £5m
(with a minimum holding of 20% as per LAS approach)

Any institution whose credit rating falls below the limits F2 will no longer be a permitted counterparty for further transactions (subject to advice from Treasury Advisor).

**** Fitch Ratings Definition - Short-Term Ratings Assigned to Issuers or Obligations in Corporate, Public and Structured Finance**

A short-term issuer or obligation rating is based in all cases on the short-term vulnerability to default of the rated entity or security stream and relates to the capacity to meet financial obligations in accordance with the documentation governing the relevant obligation. Short-Term Ratings are assigned to obligations whose initial maturity is viewed as "short term" based on market convention. Typically, this

means up to 13 months for corporate, sovereign, and structured obligations, and up to 36 months for obligations in U.S. public finance markets.

F1: Highest short-term credit quality - Indicates the strongest intrinsic capacity for timely payment of financial commitments; may have an added "+" to denote any exceptionally strong credit feature.

4. CASH & LIQUIDITY POLICY

The Fund's policy is to ensure the efficient and effective management of cash resources to maximise investment income while ensuring sufficient cash on hand to meet obligations and avoid funding shortfalls.

This policy also contributes towards meeting the Fund's obligations to all relevant parties by ensuring the existence of an effective cash management system to provide for the payment and investment of cash, transmitting timely and reliable cash flow forecasts and ensuring compliance with relevant statutory and regulatory requirements.

Monies managed for Treasury purpose will be low value and short-term in nature, used to provide payment of pension benefits. Any higher balances are transferred to external pension investment managers, who invest per their individual investment mandates.

In addition to the above, as part of their remit, the Pension Fund's custodian undertakes short term cash management investment activities on behalf of the fund and operate to pre-agreed criteria within their mandate.
