REPORT TO: PERFORMANCE & AUDIT COMMITTEE – 24 SEPTEMBER 2019

REPORT ON: CARE INSPECTORATE GRADINGS - REGISTERED CARE SERVICES FOR ADULTS (EXCLUDING CARE HOMES) 2018-2019

REPORT BY: CHIEF FINANCE OFFICER

REPORT NO: PAC25-2019

1.0 PURPOSE OF REPORT

The purpose of this report is to summarise for the Performance and Audit Committee the gradings awarded by the Care Inspectorate to registered care services for adults (excluding care homes), these services having a contractual arrangement with Dundee Health & Social Care Partnership, for the period 1 April 2018 to 31 March 2019.

2.0 **RECOMMENDATIONS**

It is recommended that the Performance & Audit Committee (PAC):

- 2.1 Notes the content of this report and the gradings awarded as detailed in the attached Performance Report (Appendix A) and highlighted in section 4.2.
- 2.2 Notes the range of continuous improvement activities progressed during 2018-19, as described in section 4.3.

3.0 FINANCIAL IMPLICATIONS

None.

4.0 MAIN TEXT

4.1 Background

4.1.1 The Care Inspectorate is responsible for the inspection and regulation of all registered care services in Scotland. The regulatory authority ensure that care service providers meet their respective National Care Standards and that in doing so they provide quality care services. The Care Inspectorate use a six point grading system against which certain key themes are graded. The grades awarded are published in inspection reports and on the Care Inspectorate's website at www.careinspectorate.com.

4.2 Gradings Awarded

- 4.2.1 Of the 75 registered services listed in the Performance Report, 53 inspections were undertaken.
- 4.2.2 Summary of the gradings awarded to registered care services in Dundee:
 - 42 registered services (56%) were awarded grades **4**, **5** or **6** in some or all themes (2 of these services received grade 6 in all themes).

- 11 registered services (15%) were awarded grades which included grade 3 'adequate' or grade 2 'weak' (only 1 service received grade 2).
- 22 registered services (29%) were not inspected during this period.
- 4.2.3 One internally provided Dundee Health and Social Care Partnership services and one externally provided private services were graded **6** 'excellent' in all applicable quality themes. Of the 53 inspections undertaken, there was a 9% improvement in grades for Quality of Care and Support, 13% improvement in Quality of Staffing and 9% improvement in Quality of Management and Leadership.
- 4.2.4 Of the 53 inspections undertaken, 15% were downgraded for Quality of Care and Support, 2% downgraded for Quality of Environment, 9% downgraded for Quality of Staffing and 21% downgraded for Quality of Management and Leadership.
- 4.2.5 Only 3 of the 53 inspections undertaken were graded against Quality of Environment with only one service being downgraded from a grade **6 'excellent'** to a grade **5 'very good'.**
- 4.2.6 One inspection, The Inclusion Group, was graded **2** weak' and 3 'adequate' in all themes. The responsible Locality Manager implemented a Co-ordinating Group comprising of representation from across the Partnership, Children and Families Service, Social Care Contracts and The Care Inspectorate and The Inclusion Group. The action notes from each meeting were distributed to all stakeholders and a significant number of actions were agreed and carried out. The co-ordinating group continue to work in partnership to identify, and mitigate, risks and to ensure that all services provided are safe and outcome focussed with a clear emphasis on shared learning to ensure the best outcome for the children and adults supported by The Inclusion Group.
- 4.2.7 Table 1 shows the percentage of grades awarded within each key theme in Dundee in 2018-2019.

Grade 2018-19	Overall	Quality of Care and Support	Quality of Environment*	Quality of Staffing	Quality of Management and Leadership
6 excellent	15.0%	13%	2%	15%	15%

*Environment totals reflect 7 inspections out of 55 as not all services require the environment to be assessed e.g.within a service user's own home in the community

4.3 Continuous Improvement

4.3.1 Support Services

As part of the homelessness and substance misuse transformation programme, Housing First Dundee is an innovative programme that will work positively and proactively with those that have had difficulty in engaging with traditional housing and support services due to a variety of complex needs. It is being delivered by a consortium of four Third Sector organisations (Transform Community Development, Dundee Survival Group, The Salvation Army and Addaction Scotland) with acknowledged support of Housing First Scotland Fund and The Care Inspectorate.

British Red Cross have continued to test an Assessment at Home model for people who are in a hospital setting and there is uncertainty as to whether the person can return home. Over a maximum 21 day period an assessment is undertaken to identify if the individual can safely remain at home as opposed to being admitted to long term care, which had been the identified pathway for the person when they were in hospital. The test of change was extended during 2018-19 to include the provision of a flexible and responsive care at home service by British Red Cross to people who are identified by Dundee Health & Social Care Partnership's Enhanced Community Support/Dundee Enhanced Community Support Acute Services as requiring support to prevent a hospital admission as part of an ongoing assessment. The two year test of change has now come to an end and an evaluation is being undertaken with a view to procuring an ongoing service from a care at home provider.

4.3.2 Care at Home/Housing Support

Since 2017 the existing arrangements for overnight support provision to adults with either a Learning Disability and/or Autism, or experiencing mental health and wellbeing challenges who are supported by a range of Housing Support/Care at Home providers have been analysed in relation to the impacts of legislative changes and the new opportunities for improving people's independence through the use of technology. Based on the information gathered it was agreed that a Test of Change would be designed and implemented introducing Specialist Overnight Support Service which would either complement existing waking night workers or meet the overnight needs of a number of people in a planned and informed way. In order to inform the design of the service a briefing and Q&A session was held for all providers within the agreed scope of the Test of Change this was followed by gathering views of individuals, families, staff teams and Care Managers to identify existing risks and potential mitigations and actions required prior to the implementation of the Test of Change. Currently consideration is being given to the technology required to meet individual specific needs whilst also enabling and facilitating independent living.

5.0 POLICY IMPLICATIONS

This report has been screened for any policy implications in respect of Equality Impact Assessment. There are no major issues.

6.0 RISK ASSESSMENT

This report has not been subject to a risk assessment as it is provided for information and does not request a policy decision from the PAC.

7.0 CONSULTATIONS

The Chief Officer, the Clerk, Head of Service - Health and Community Care and Chief Social Work Officer were consulted in the preparation of this report.

PERFORMANCE REPORT – CARE INSPECTORATE GRADINGS

DUNDEE REGISTERED CARE SERVICES FOR ADULTS (EXCLUDING CARE HOMES)

1 APRIL 2018 - 31 MARCH 2019

INTRODUCTION

The purpose of this report is to summarise for members the findings and gradings awarded by the Care Inspectorate to registered services for adults within Dundee for the period 1 April 2018 to 31 March 2019.

BACKGROUND

The Care Inspectorate regulates and inspects care services to make sure they meet the right standards. It also works with providers to help them improve their service and make sure everyone gets safe, high quality care that meets their needs. The Care Inspectorate has a critical part to play to make sure that care services in Scotland provide good experiences and outcomes for the people who use them and their carers.

The new Health and Social Care Standards came into effect in April 2018. The new Standards replace the National Care Standards and are now relevant across all health and social care provision. They are no longer just focused on regulated care settings, but for use in social care, early learning and childcare, children's services, social work, health provision and community justice. They seek to provide better outcomes for everyone, to ensure that individuals are treated with respect and dignity, and that the basic human rights we are all entitled to are upheld.

The Standards are underpinned by five principles; dignity and respect, compassion, be included, responsive care and support and wellbeing.

The headline outcomes are:

- I experience high quality care and support that is right for me
- I am fully involved in all decisions about my care and support
- I have confidence in the people who support and care for me
- I have confidence in the organisation providing my care and support
- I experience a high quality environment if the organisation provides the premises.

The method of inspecting services has also changed. Rather than just checking that a service is complying with basic inputs for all individuals, inspections are to look at what it is like to actually use the service. Inspectors from different scrutiny bodies now also work jointly to look at how individuals experience a range of services within the care system. More integrated standards, which look at how the rights and wellbeing of people who use care are protected and improved, from strategic commissioning to the actual experience of using services, should provide a more effective and relevant model of scrutiny fit for the future.

The Care Inspectorate continue to inspect using a six-point grading scale (see below) against which the following key themes are graded:

Each theme is assessed from 1 to 6 with1 being 'unsatisfactory' and 6 'excellent'.

- Quality of Care and Support How the service meets the needs of each individual in its care
- Quality of Environment

Is the service clean, is it set out appropriately, is there easy access for individuals who use wheelchairs, is it safe, and is there a welcoming, friendly amosphere?

- Quality of Staffing
 The quality of the care staff including qualifications and training
- **Quality of Management and Leadership** How the service is managed and how it develops to meet the needs of people it cares for

The grading scale used is:

6 excellent
5 very good
4 good
3 adequate
2 weak
1 unsatisfactory

OVERVIEW OF THE SERVICES INSPECTED

This report covers a range of registered care services for adults (see Appendix A attached) that are subject to regulation. These include:

- Tenancy Support: a housing support service which provides support, assistance, advice or counselling to enable a person to live in their own home in the community. Housing support may be provided to people living in, for example, sheltered housing, hostels for the homeless, accommodation for the learning disabled, women's refuges or in shared homes
- Respite: a service provided to permit a carer temporary relief from caring. It can be provided at home or elsewhere and may extend from a few hours to a few weeks
- Support Services not care at home: a service which provides support in a setting outwith the home similar to a day opportunities service
- Support Services with care at home: a service which provides support and/or personal care in your own home. This service is primarily provided to older people in Dundee within DHSCP Home Care Service and provided by both internal staff and externally commissioned organisations
- Care at Home/Housing Support (combined): a 24/7 housing support service combined with a care at home service registration. A housing support service (see tenancy support definition above) and combined care service provided to individuals in their own home. This service is primarily provided to people with a learning disability and/or a mental health difficulty

Of the 75 registrations included in this report (Appendix A), a total of 53 inspections were carried out by the Care Inspectorate during the reporting period 2018-2019 (some services received more than one inspection throughout the year). When there is performance concerns at an inspection resulting in a number of requirements being imposed, a follow up inspection visit is arranged. This can result in further action being taken or grades being amended. Inspection visits can also be carried out if complaints are made against a service.

The following table shows the overall percentage awarded at each grade and also for each key theme.

*Environment totals reflect 3 inspections out of 53 as not all services require the environment to be assessed eg within a service user's own home in the community

Only 1 service, The Inclusion Group, received a grade **2** "weak" and there were no services in receipt of a grade **1** 'unsatisfactory".

The Locality Manager implemented a Co-ordinating Group comprising of representation from across the Partnership, Children and Families Service, Social Care Contracts and The Care Inspectorate and The Inclusion Group. The action notes from each meeting were distributed to all stakeholders and a significant number of actions were agreed and carried out. The co-ordinating group continue to work in partnership to identify, and mitigate, risks and to ensure that all services provided are safe and outcome focussed with a clear emphasis on shared learning to ensure the best outcome for the children and adults supported by The Inclusion Group.

Requirements

A requirement is a statement which sets out what a care service must do to improve outcomes for people who use services and must be linked to a breach in the Public Services Reform (Scotland) Act 2010, its regulations, or orders made under the Act, or a condition of registration. Requirements are enforceable in law.

Requirements were placed on 9 of the 75 registered services following inspection during 2018-19 (see Appendix 2).

Complaints

A complaint is an expression of dissatisfaction about a registered care service's action or lack of action, or about the standard of service provided by or on behalf of a registered care service'. Following investigation, a decision will be made by the Care Inspectorate whether the complaint is upheld or not upheld.

During 2018-19 the Care Inspectorate received complaints relating to 11 of the 75 registered services in Dundee. Of these, all were upheld or at least one of the elements upheld.

General health and welfare

- healthcare medication issues
- healthcare clinical governance

Staff

• staffing levels

Choice

- care and treatment
- dignity and privacy
- activities

Communication

• between staff and service users/relatives/carers

Record keeping

• personal plans/agreements

Enforcements

Enforcement is one of the Care Inspectorate's core responsibilities and is central to protecting residents and bringing about an improvement in the quality of care services.

No enforcement action has been required to be taken in respect of the services reported upon either directly by the Care Inspectorate or by Dundee Health & Social Care Partnership.

CONTINUOUS IMPROVEMENT

Support Services

As part of the homelessness and substance misuse transformation programme, Housing First Dundee is an innovative programme that will work positively and proactively with those that have had difficulty in engaging with traditional housing and support services due to a variety of complex needs. It is an exciting opportunity to give participants hope and end the revolving door of homelessness. It is being delivered by a consortium of four Third Sector organisations (Transform Community Development, Dundee Survival Group, The Salvation Army and Addaction Scotland) with acknowledged support of Housing First Scotland Fund and the Care Inspectorate. Housing First is an internationally evidence-based approach, which uses independent, stable housing as a platform to enable individuals with multiple and complex needs to begin recovery and move away from homelessness.

British Red Cross have continued to test an Assessment at Home model for people who are in a hospital setting and there is uncertainty as to whether the person can return home. The project allows people to go home with a flexible care service delivered by British Red Cross that is appropriate to their needs including the provision of overnight care where this is required. Over a maximum 21 day period an assessment is undertaken to identify if the individual can safely remain at home as opposed to being admitted to long term care, which had been the identified pathway for the person when they were in hospital.

The test of change was extended during 2018-19 to include the provision of a flexible and responsive care at home service by British Red Cross to people who are identified by Dundee Health & Social Care Partnership's Enhanced Community Support/Dundee Enhanced Community Support Acute Services as requiring support to prevent a hospital admission as part of an ongoing assessment. The two year test of change has now come to an end and an evaluation is being undertaken with a view to procuring an ongoing service from a care at home provider.

Care at Home/Housing Support

Since 2017 the existing arrangements for overnight support provision to adults with either a Learning Disability and/or Autism, or experiencing mental health and wellbeing challenges who are supported by a range of Housing Support/Care at Home providers have been analysed in relation to the impacts of legislative changes and the new opportunities for improving people's independence through the use of technology. Based on the information gathered it was agreed that a Test of Change would be designed and implemented, this Test of Change would be the introduction of Specialist Overnight Support Service which would either complement existing waking night workers or meet the overnight needs of a number of people in a planned and informed way. In order to inform the design of the service a briefing and Q&A session was held for all providers within the agreed scope of the Test of Change this was followed by gathering views of individuals, families, staff teams and Care Managers to identify existing risks as part of a risk enablement process, this process also included identifying potential mitigations and actions required prior to the implementation of the Test of Change. These actions have all now been completed and we are now at the stage of considering the technology required to meet individual specific needs whilst also enabling and facilitating independent living.

CONCLUSION

Of the 53 inspections carried out in the 75 registered services listed in the Performance Report, the improvement in grades highlights the importance of the partnership approach between providers, local authority representatives and the Care Inspectorate and consequently leads to better outcomes for service users. There is also evidence in Appendix 1 to support the effort of services who have previously achieved good grades for continuing to maintain their high standard of performance.
