

5 OUTDOOR ACCESS IMPROVEMENT WORKS (AN10-2009)

Reference is made to Article XI of the Leisure, Arts and Communities Committee of 8th December, 2008 whereby approval was given for Outdoor Access Improvement works along the Green Circular route and the Broughty Ferry dunes.

To increase the benefits of this work approval is sought to extend the existing contracts awarded to T & N Gilmartin (Contractors) Ltd to extend the restoration of the Green Circular into Templeton Woods and to an adjoining path in Camperdown Country Park using tendered rates up to a maximum value of £20,000 and extend the existing contract in respect of the restoration of the fenced area at Broughty Ferry awarded to Willow and Wood Ltd using tendered rates to a maximum of £3,500.

It is recommended that the above amendments to the existing contracts are agreed.

This expenditure will be met through the Leisure and Communities Department's 2008/09 Capital Budget of which £50,000 is targeted towards Outdoor Access Improvements.
