(c) LATE HOURS CATERING LICENCES POLICY REVIEW

At its meeting on 18th October 2005, the Licensing Committee adopted a policy with regard to the terminal hours of late hours catering premises in the City Centre (defined as the area encircled by the inner ring road) whereby such premises would normally be allowed to remain open until 2.30 am. This policy has been applied in practice since the first applications affected thereby came before the Committee in March 2006. A number of premises have continued to enjoy the benefit of longer opening hours (i.e. beyond 2.30 am) which they had before the policy was introduced. This was a result of an agreement with the operators concerned following appeals to the Sheriff Court against the reductions in hours which would otherwise have applied to them. However, such agreement only applied to the then current operators and will not apply if any of the businesses are sold and are the subject of new applications (the licences not being transferable under the 1982 Act). Equally, a number of other operators are subject to the policy hours since they were unable to persuade the Committee to relax the policy in their individual cases.

The Licensing Board is currently consulting on possible changes to the policy on opening hours for liquor licensed premises, with which the Committee's policy is closely related. There have also been a number of applications recently where the policy has been discussed. It is therefore suggested that this would be an opportune moment for the policy on late hours catering licence terminal hours to be reviewed. Such a review could deal specifically with the following issues (and any other issues which the Committee decides are relevant):-

- should the policy continue to apply and, if so, does the geographical area in which it applies need to be reduced or extended?

- is 2.30 am still an appropriate time for such establishments to close?

It is recommended that if the Committee is minded to review the policy in the manner set out above, the Head of Democratic and Legal Services be instructed to carry out the appropriate consultation with interested parties and report back to the Committee at its meeting on 5th September, 2013, by which time the Board policy review on liquor premises licences will also have been completed. The Committee's instructions are requested.

(i) DEMAND FOR TAXIS – REPORT OF TAXI SURVEY

Reference is made to the decision of the Licensing Committee on 23rd October, 2012 to commission a survey on the demand for the services of taxis in Dundee to determine if there is any significant unmet demand for the purposes of Section 10 (3) of the Civic Government (Scotland) Act 1982. The final survey report has now been received and is attached at (**Appendix 4**). A copy of the Taxi Survey Report has also been made available on the Licensing pages of the website of Dundee City Council.

The clear conclusion which can be drawn from the report is that there is no significant unmet demand for taxi services in the city with the current number of licences (as of 18th June, 2013, there were 674 taxi licences of which 283 (42%) are saloon vehicles and 391 (58%) are wheelchair accessible vehicles. At the time of the survey, there were 661 licences, but a number of these licence holders failed to renew their licences on 31st May, 2013. The report does not state a lowest number at which there would be no significant unmet demand because this can only be assessed against the number of licences in existence at the time the survey is conducted. However, the report does say that a number as low as 611 would have no effect on passenger delay and that any limit which may be introduced should not be lower than 611.

It is therefore RECOMMENDED that:

- (1) the Committee decides that there is no significant unmet demand for taxis in terms of Section 10 (3) of the said 1982 Act;
- (2) the Committee resolves that no new licences be issued until the number of licences falls below 611, at which time a further survey would be undertaken to determine if that figure is still appropriate as an indicator of unmet demand, subject always to the Committee's legal duty to consider in individual cases whether any exceptions should be made to that limit;
- (3) the Committee decides to instruct a further full survey in 3 years' time, with interim or "top up" surveys annually;
- (4) the Committee instructs a further report to be prepared by officers to submit proposals for the maintenance of the 60/40 WAV/saloon split decided by the Committee at the meeting on 23rd October, 2012, with particular attention to how such licences would be allocated between operators, and also any other matters relevant to the quality and operation of taxis in Dundee.
