

COMMERCIAL BUILDINGS ENHANCEMENT GRANT DUNDEE CITY CENTRE Application Guidance

Deadline for bids	5pm on Monday 13 April 2026
Exterior application level (for buildings already occupied)	Minimum - £10,000 Maximum - £50,000
Interior/Exterior application level (for vacant buildings to be brought back into productive use)	Minimum - £20,000 Maximum - £100,000
Match Funding	All projects will be required to provide match funding of at least 25%.
Timescales	Projects must complete by December 2026
Application process	<p>Submit an Expression of Interest (EOI) form to provide basic information about your project. If your project is eligible and meets the key priorities of the programme, you will be provided with a full application form.</p> <p>Projects will be assessed and applicants informed within 6-8 weeks of submission of their full application (this may be extended if there are a significant number of applicants to be assessed at any given time).</p>

Background

Dundee City Council has secured funding from the UK Government through the Community Regeneration Partnerships to support the development of the city centre. Funding was awarded to enable Dundee City Council to take forward key objectives of the City Centre Strategic Investment Plan, which incorporates a range of potentially significant investment opportunities and prioritises the need to make the city centre an attractive place for both businesses and residents alike.

In order to achieve this, the Council has established the Commercial Buildings Enhancement Grant scheme, with two distinct parts. The first will focus on **shopfront repairs and enhancements** for occupied premises, and the second scheme offers grants to support **internal refurbishment/upgrading for vacant premises or those with newly appointed tenants**, to bring them back into productive use.

As this is a capital programme focused on improving the long-term quality and condition of city centre buildings, funding is limited to bricks-and-mortar premises. The scheme does not support mobile trading units, temporary pop-ups, or vehicle-based businesses.

This scheme is for premises located in the city centre only. Please refer to [the map](#) in the annex of this document to ensure your property is within the eligible project zone.

Overview

Premises that are already occupied are only eligible to apply to the first scheme which support **external** improvements to units which are currently occupied.

The second scheme will support **internal and some external** improvements to units which are unoccupied or subject to a newly signed lease, prior to the tenants moving in. External improvements can also be included as part of the project, as long as the main refurbishments will be on the interior of the property.

The main aims of the scheme are as follows:

- Boost occupancy rates in vacant retail units within Dundee city centre by making internal and/or external enhancements
- Improve the long-term quality and condition of city centre buildings
- Encourage private investment to repurpose and revive vacant shops in the city centre
- Improve the visual appearance of shop fronts in the city centre enhancing civic pride and the attractiveness of the city.
- Enhance activity and footfall in and around the city centre, including commercial activity
- Generate employment opportunities and additional social value benefits
- Elevate perceptions and confidence among local residents, visitors, businesses, and investors.

This is a fund for city centre premises only. Please refer to the [map of the eligible zone](#) before submitting an Expression of Interest to confirm your premises is within the boundary. Premises outside the zone will not be considered for funding. Dundee City Council reserves the right to prioritise streets and buildings within the city centre to meet the strategic aims of the programme. This could include limiting activity to the speciality shopping non-frontage area as outlined in the Dundee Local Development Plan. See [annex 2](#).

Who can apply?

- Businesses (including sole traders, community enterprises and charities) that take on new leases of previously vacant commercial premises in Dundee city centre. The term of your lease and proposed works may impact on the level of grant that you will be awarded.
- If a new leaseholder or tenant is making the application, the property owner must provide a supporting letter confirming their consent for the grant application
- Property owners, or their representatives, of vacant city centre premises. If an application is made on behalf of the owner, evidence must be provided showing that the organisation is authorised to act on the owner's behalf and can enter into a legal agreement with Dundee City Council regarding the grant. It is also expected that property owners have a new tenant lined up for the premises or are in the process of securing one.
- Operational commercial units/existing tenants may apply for visual shop front enhancements, including signage, windows, vinyls, or similar displays. Properties do not have to have traditional shop frontages to be considered for this scheme.

Funding available

Exterior improvements and enhancements for occupied premises	
Minimum Project Size	£10,000
Maximum Project Size – larger projects may be considered but must engage with DCC in advance of an application	£50,000
Match Funding	Minimum of 25%

Interior /Exterior improvements and enhancements for vacant premises	
Minimum Project Size	£20,000
Maximum Project Size – larger projects may be considered but must engage with DCC in advance of an application	£100,000
Match Funding	Minimum of 25%

Larger (or smaller) applications may be considered on a case-by-case basis – based on evidence of need. Please contact the team via the Expression of Interest form and a member of the project delivery team will review your information.

If a property owner or agent wishes to undertake projects on multiple properties in their ownership/management, the Council will consider a joint bid, particularly where costs for each individual property may be under the £10,000 minimum. Please outline your planned approach in the EOI.

Timescales

The fund opened for applications on 22 April 2025, with applications being assessed on an ongoing basis. Projects will be assessed and applicants informed within 6-8 weeks of submission of their full application (this may be extended if there are a significant number of applicants to be assessed at any given time). The deadline for full applications is 5pm on Monday 2026. Projects must be completed and funding spent by 31st December 2026.

What will this funding support?

This is a capital funding programme. Grants are available for the internal or external enhancement or alteration of commercial and retail buildings.

Examples of activities:

Exterior

- Shopfronts and traditional signwriting.
- Enhancing existing historic features e.g. windows, doors, brickwork, timber details, etc
- High level joinery
- Awnings
- Works to property entrance to create access/enhance accessibility
- Window /door replacement
- External lighting (e.g. decorative or security lighting)

- Repairs to frontages
- Professional fees

Interior

- Electrical upgrades
- Updating floors and ceilings
- Accessibility improvements
- Net Zero energy installations
- Installation of core fixtures and fittings
- Professional fees

What is not eligible

The following types of premises, activities, or costs are not eligible for support through this scheme:

- Non-permanent or mobile trading units, including: Pop-up structures, temporary stalls or kiosks, market stalls, mobile vans, trailers, food trucks, or other vehicle-based businesses
- Business equipment not related to improving the building, including items that are movable, operational, or specific to the business rather than the fabric of the premises. This includes (but is not limited to) sinks, dishwashers, commercial kitchen equipment, furniture and loose fixtures
- Any equipment or assets that do not constitute permanent improvements to the building structure or fabric
- Premises located outside the defined eligible boundary
- Works that have already begun before a formal grant offer letter is issued and signed
- Routine maintenance or minor cosmetic works that do not contribute to strategic aims or materially improve the building
- Non-capital or operational costs, including staffing, stock, marketing, rent, or utilities
- Residential properties, or residential elements of mixed-use buildings
- Properties without a planned or active commercial use

Procurement Requirements

As a condition of funding from the UK Government we are required to ensure that appropriate procurement processes have been followed, ensuring transparency, value for money, and compliance with relevant legislation and guidance.

You must obtain quotes from at **least 2 different** suppliers for:

- Any single item costing £1,000 or more, or
- Cumulative costs from a single supplier totalling £1,000 or more.

You must obtain quotes from **at least 3 suppliers** for:

- Any single item costing £2,500 or more, or
- Cumulative costs from a single supplier totalling £2,500 or more.

For any works **over £50,000**, a fuller procurement process is required. This must include:

- A clearly defined scope of works shared with all potential tenderers

- A minimum of three quotes from external sources
- An agreed timeline for the procurement process
- Answers to any questions asked by one potential tenderer must be shared with all potential tenderers
- A scoring approach/evaluation methodology for selecting the contractor

Application process

1. Submit an [Expression of Interest](#). Eligible/viable projects will then receive a copy of the application form.
2. If eligible, submit your full application ensuring that all required documents are included.
3. Scoring panel assesses the applications.
4. Feedback to applicants/additional information requested.
5. Further assessment following receipt of additional information.
6. Due diligence checks on projects progressing to this stage
 - Fraud checks
 - Finance checks
 - Lease/ownership checks – evidence of agreement as required
7. Decision made and communicated to applicants.

Applicants should note that any works which have begun prior to the grant offer letter being signed will not be eligible for this scheme. We may conduct onsite visits to verify your application and to ensure the works have not yet commenced.

Grants will be paid in arrears, following submission of a grant claim with evidence of eligible costs.

Planning permissions and statutory consents

Planning permission is necessary for any works that involve significant changes to the external appearance of a building. This includes alterations to the shop fronts, windows or doorways, changes in the type of materials used, and the installation of awnings, blinds, or security shutters. You may also need planning permission for changes in the use of the property. If your building is listed, you may also require listed building consent.

Building warrants are another statutory requirement for most work, you must check if you require a building warrant.

We shall require evidence that you have checked what regulatory approvals you may need as part of the application process.

Key outputs and objectives

Key outputs and outcomes which will be measured include:

- Number of building facades improved
- Number of spaces made more lettable through investment
- Areas of frontage/facades improved

- Number of companies receiving financial support/grants
- Amount of commercial buildings development or improved (m2)
- Increased footfall in key city centre streets
- Increased visitor numbers
- Improved perceptions of the city
- Reduction in CO2 emissions from the improved units.

The funding will also support the key priorities of City Centre Strategic Investment Plan outcomes:

- Stimulate investment in high-quality workplaces in the city centre
- Develop a wider range of activities for locals and visitors of all ages including leisure, entertainment, cultural, live music, and evening economy initiatives
- Target key building frontages with a façade enhancement scheme, including Union Street, Reform Street and the Murraygate
- The council will work proactively with the private sector to explore the viability of further commercial spaces

Required documents

Please submit the following documents with your application:

- Proof of ownership or proof of lease
- Supporting Letter indicating consent of the grant application and work from landlord (mandatory if tenant applicant)
- Proof of additional project funding secured (mandatory – a signed confirmation letter or similar)
- Business plan (if new tenant)
- Latest annual accounts
- Bank statements for the past three months
- Proof of business status
- Quotes and evidence of costs
- Cash flow forecast for the next 12 months
- Photographs, plans, drawings, if available

Need for the grant scheme

Placemaking is a key tool in economic development, using local assets to create unique and appealing places where people want to live, work and play. The quality of place is often a key differentiator in being able to encourage people to spend time in an area (in this case, the city centre), to retain/recruit staff and to attract visitors. The Centre for Cities Outlook 2024 highlighted that Dundee's population have much less money in their pockets than if disposable incomes had grown at pre-2010 rates (-£17,730), compared to a national level of -£10,200. Dundee has the lowest employment rate of all UK cities (ONS 2023). All of this impacts on spend in the city centre and in turn on investment in the city centre. We need to encourage people to invest in their properties to make the city centre a more attractive place, whilst also supporting wider economic growth.

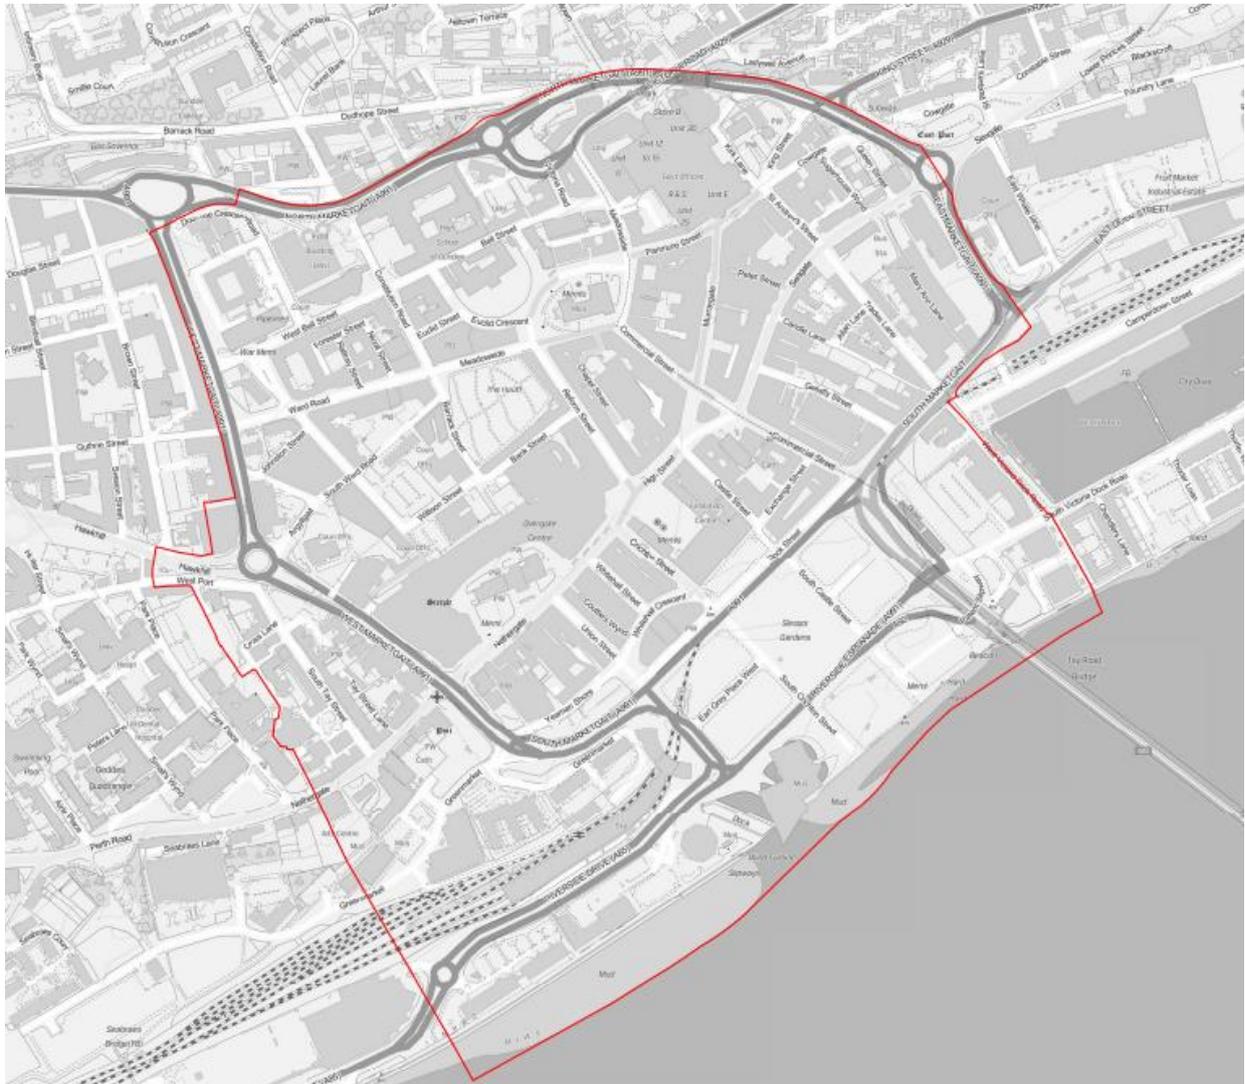

Vacant and under-used properties in the city centre causing blight, making the city centre a less attractive place to visit, in turn perpetuating a spiral of decline. Recent changes to the way rates are collected in Scotland means that there is no grace period for vacant premises and owners are liable from rates for day 1. This also now includes listed buildings which had previously been exempt of rates for any vacant period. This may mean that owners are now more likely to be considering investment or to let on a short-term basis. The challenges relate to both building facades of both occupied and vacant premises but also to the internal infrastructure of vacant spaces some of which haven't been occupied for many years and require work to bring them up to a usable quality. For example, there are retail units on Reform Street and Exchange Street which have been empty for over 10 years.
