

Dundee Active Travel are working with pupils and the school community to encourage travel to school by walking, wheeling, and cycling. Travelling actively creates a healthier, more enjoyable, and safer route to school. We are also trying to reduce traffic congestion around the school to make the school environment safer and reduce air pollution.

This map is a great way to plan your active travel journey to school. We have also included some suggested park and stride locations, as we know not everyone can walk, wheel, or cycle the whole way to school. When parking and striding, please ensure that your vehicle has been parked in a safe location, taking care to ensure local residents are not impacted negatively by your actions. By parking and striding, we can keep the school environment free of vehicles and safer for the school community.

Mill of Mains has cycle and scooter parking making it easier for you to cycle and wheel to school.

Disclaimer: while the map overleaf shows recommended routes to school, we cannot take responsibility for the journey itself. Take care to ensure that you and your child travel safely and always follow the Green Cross Code.
