16. Full Definitions ..... 27

17. List of Large Occupied Retail Units ..... 28

18. List of Large Occupied Non-Retail Large Units..... 37

19. List of Vacant Large Retail Units ..... 38

## 1. Introduction

Retail is an important sector of Dundee's economy. In order to keep up to date on the state of retail throughout the City, the Council undertakes a retail survey on an annual basis.

This booklet summarises the findings of the retail survey carried out on retail units within the Dundee City Council area. In 2014, **1,863 units** were surveyed ranging from local corner shops to food superstores. The information collected in the survey includes gross floor space, type of retailer and type of retail activity.

During the retail survey, staff from the Information and Research Team conducted an external visual inspection of all retail premises within the Dundee City Council area. The survey gathers information such as the name and type of retailer and does not involve any questioning of staff or customers. The full specification of the information collected can be found in Section 15.

During the period 2001 to 2011 full retail surveys were undertaken every two years. These were supplemented by interim surveys carried out every six months. In 2012 the decision was made to carry out a full survey every year in May/June with interim surveys no longer being undertaken.

The results of the full retail surveys are stored as feature classes in the Geographical Information System (GIS) allowing spatial analysis and visual representation of the data. This data is available to Dundee City Council staff via desktop GIS and the Intranet GIS. Where appropriate throughout this booklet a National Unique Property Reference Number (UPRN) has been provided to allow Council staff to locate retail units using this UPRN.

Floor space figures in square metres are provided for the majority of units in the retail survey. These have been compiled from a variety of sources such as Ordnance Survey mapping and planning applications. These figures are not regularly reviewed but in 2009 a quality assurance exercise was carried out comparing the retail database figures from other sources. No guarantee can be given as to the correctness of any individual floor space figure held in the database.

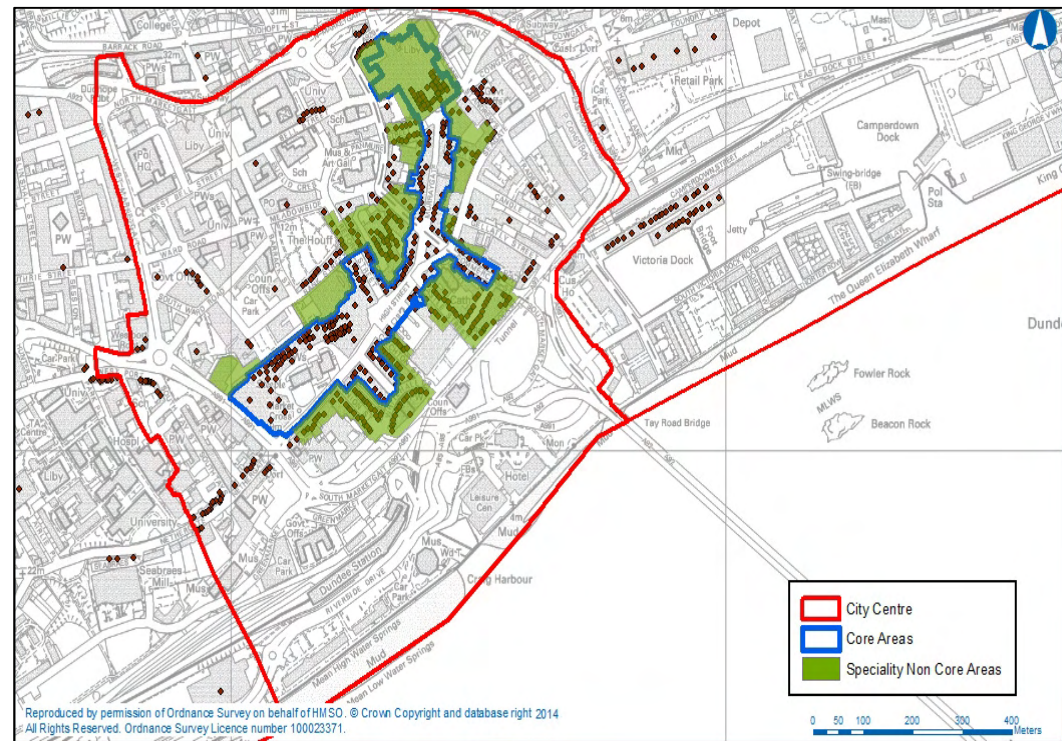

This is the ninth edition of the retail booklet. The first edition was produced in response to the various internal and external requests received for information about retail units in Dundee. Please note throughout the booklet percentages may not sum to 100% due to rounding. It is important to remember that the findings of the survey show a snapshot in time, changes may have occurred since the survey was undertaken.

## 2. Retail Areas within the City

### 2.1 Central Area

The most important retail in Dundee is the Central Area which is the regional centre for Tayside and North Fife. Within the central area the Core Area defines the prime retail frontage along the High Street and Overgate areas and includes the Overgate Centre and the ground floor of the Wellgate Centre. This Core Area accommodates a number of Dundee's key shops including national multiple retailers such as Boots, Marks and Spencer and Debenhams. These shops are key attractions for shoppers and bring spin off benefits for other shopping areas within Dundee.

The Speciality Shopping and Non-Core Area extends outside the Core Area and offers a range of generally less mainstream retailing such as speciality shops, independent retailers, financial services and personal services. The area includes Castle Street, Union Street and part of Commercial Street and The Keillor Centre.

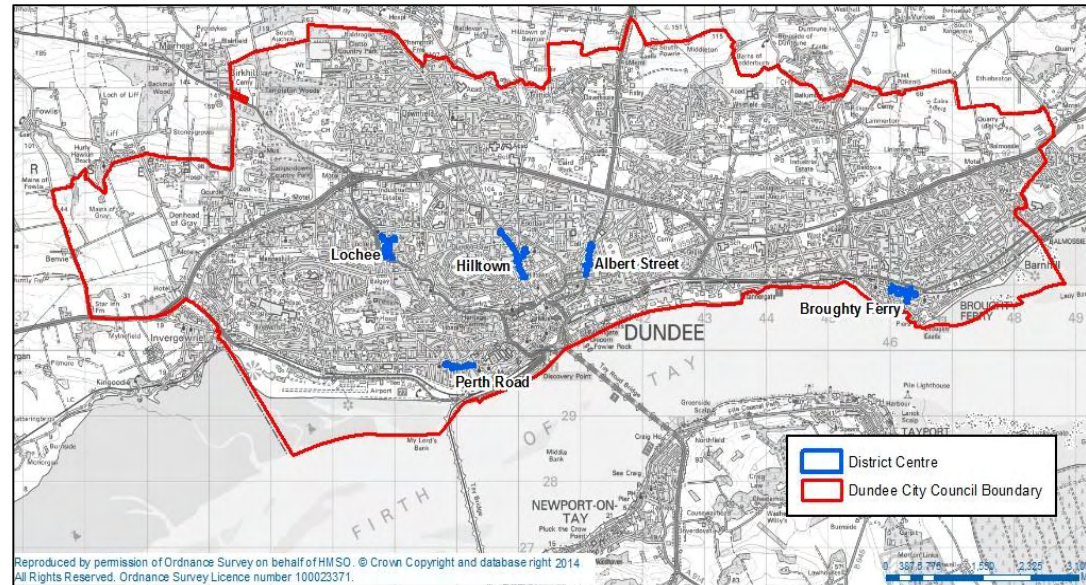

## 2.2 District Centres

Dundee has five defined Districts Centres. These are:

- Albert Street
- Broughty Ferry
- Hilltown
- Lochee
- Perth Road

They each provide a good choice of convenience and comparison goods. These areas mostly have at least one large food store and are supported by a range of facilities and services geared to a number of inner city communities.

## 2.3 Major Out Of Centre

The Major Out of Centre category groups together the Major Retailers located throughout Dundee. Dundee has three retail parks along with the South Road and City Quay areas. In addition it has several freestanding major retailers. These retail units include:

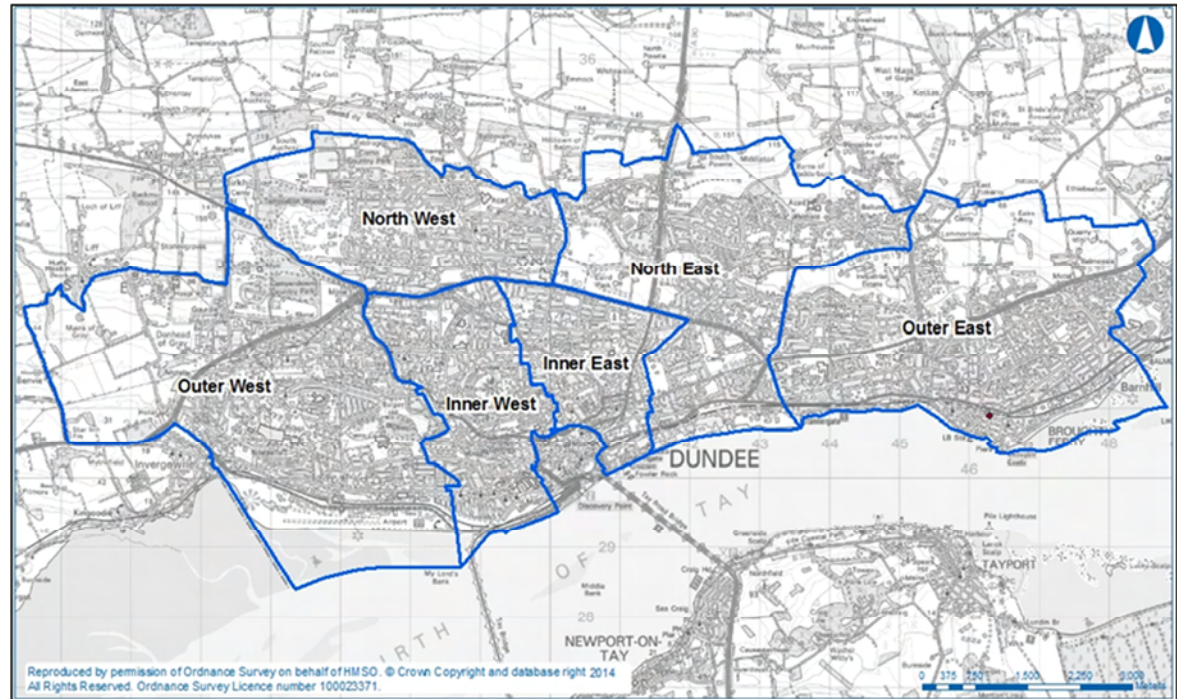

- Aldi
- Asda
- B & Q
- Lidl
- Morrisons
- Poundstretcher
- Sainsburys
- Tesco
- Carpet King

## 2.4 Corner Shop Areas

The whole of Dundee outside the Central Area is divided into six Corner Shop areas which are:

- North West
- Outer West
- Inner West
- North East
- Inner East
- Outer East

Shops that are not placed in any other category are assigned to their Corner Shop Area. This can therefore include shops which would not ordinarily be considered as “Corner Shops”.

### 3. Retail Unit Definitions

The table below shows the types of retail units surveyed and the number and each type recorded in the 2014 survey along with a broad definition of each. More detailed information on these units can be found in Section 16.

Type of Unit	Definition	Number Surveyed
Retail Unit	A general term for any unit covered by the survey. This can include non-retail units adjacent to retail units.	<b>1,863</b>
Large Retail Unit	A Large Retail Unit is normally a retail unit with a gross floor space greater than 800 m <sup>2</sup> . The purpose of this category is to identify large units, therefore a shop classified as a Food Superstore or a Retail Warehouse can also be classified as a Large Retail Unit.	<b>103</b>
Food Superstore	A single level self-service store selling mainly food or food and non-food goods, usually with at least 2,500m <sup>2</sup> trading floor space with dedicated car parking at surface level.	<b>9</b>
Retail Warehouse	A large individual retail store with a minimum gross selling space of generally around 1,000m <sup>2</sup> , selling non-food goods, such as DIY, furniture, carpets, electrical goods and gardening goods. It caters mainly for car-borne customers and is supported by car parking provision.  Please note that some retail units with a gross floor space of less than 1,000m <sup>2</sup> can be classified as retail warehouses. This occurs if the unit was originally given planning permission to operate as per the rest of the definition above and the retail unit is in a retail park with other retail warehouses.	<b>41</b>

The use of retail units is classified into four categories. Please note that retail units are based on their primary usage for example a grocer may sell a small selection of comparison goods but this will be classed as convenience.

Classification	Definition
Comparison	Comparison goods are non-food goods which consumers purchase less frequently, usually after comparing prices and the range of available alternatives. These include goods such as clothing, footwear, leather goods, furniture, floor coverings, toys, electrical goods, books, chemist's goods, DIY goods etc. Comparison goods are sometimes referred to as durable goods.
Convenience	Convenience goods are broadly defined as food, drinks, tobacco, newspapers, magazines and confectionary. These items are generally purchased regularly for relatively immediate consumption.

Non-Retail	Non-Retail units are usually in shopping locations or shop style units but do not operate for retail purposes e.g. public houses, hairdressers, estate agents, banks etc. These premises could potentially be used for retail purposes in the future and may have been in the past. This survey may not cover every Non-Retail unit that exists on the ground particularly outside the Central Area.
Vacant Unit	Vacant units are vacated premises that have previously been operated in one of the above categories or newly built units intended for retail use.

Retail Units can be located in Managed Shopping Centres or Retail Parks.

Type	Definition	Number Surveyed
Managed Shopping Centre	A Managed Shopping Centre is an enclosed, managed, purpose built group of retail outlets, usually covered with a roof, typically offering a wide range of clothing and other comparison goods. In addition it will tend to offer restaurant and/or fast-food outlets along with dedicated car parking.	5
Retail Park	A Retail Park consists of a group of three or more non-food retail warehouses, which may be supplemented by a food superstore supported by shared car parking.	3

The table above shows that Lochee is the District Centre where the greatest changes have occurred when comparing retail floor spaces in 2013 and 2014. The Highgate shopping centre which housed some vacant units, the former Kwick Save Supermarket (106 High Street) and the former Farmfoods Store (102 High Street) were demolished between the 2013 and 2014 Retail Surveys. The demolition work has equated to the loss of 3,942 square metres of retail floor space. The regeneration work in Lochee has resulted in some new retailers taking on premises in the area. In the Lochee District Centre area, The Range a national DIY/Home Accessories store has taken over the former Tesco Supermarket building which has been vacant for a number of years. This means that 4,726 square metres of floor space which was previously vacant is now categorised as comparison. Farmfoods have re-located from their former unit on the High Street to a newly built unit just off the High Street which has a gross floor space of 528.35 square metres classified as convenience.

### 7.1 District Centres - Large Units

A full list of all occupied large units within Dundee can be found in Section 17.

District Centre	Fascia	Street Number	Street Name	Classification	Use	District Centre Overall Floor Space (Sq.m)	Unit floor space as a % of District Centre	UPRN	Floor Space (Sq.m)
Lochee	The Range		Methven Street	Comparison	Home/Leisure Goods	15,270	30.9%	009059001759	4,726
Hilltown	Hilltown Park – Dundee Market Traders and Recyclers LTD		Main Street	Comparison	Second Hand Goods	13,413	24.6%	009059002719	3,295

## 8. Corner Shop Areas – Gross Floor Space

Location	Number of Units	Total Floor Space (Sq.m)	Comparison Floor Space (Sq.m)	Convenience Floor Space (Sq.m)	Non-Retail Floor Space (Sq.m)	Vacant Floor Space (Sq.m)
Inner West	189	21,313	8,108 (38.0%)	4,440 (20.8%)	5,953 (27.9%)	2,812 (13.2%)
North West	69	9,133	589 (6.4%)	4,364 (47.8%)	3,496 (38.3%)	684 (7.5%)
Outer West	62	6,431	590 (9.2%)	3,196 (49.7%)	1,742 (27.1%)	903 (14.0%)
Inner East	195	21,162	8,923 (42.2%)	4,840 (22.9%)	6,330 (29.9%)	1,069 (5.1%)
North East	116	15,674	924 (5.9%)	5,537 (35.3%)	4,337 (27.7%)	4,876 (31.1%)
Outer East	101	10,940	1,003 (9.2%)	4,882 (44.6%)	4,315 (39.4%)	740 (6.8%)

Noteable changes between the 2013 and 2014 Retail Surveys include:

- Inner West – The opening of two new stores Home Bargains (Comparison) and Aldi (Convenience) within the Stack Leisure Park, Harefield Road, Dundee.
- North East – Opening of New Boots Store within “The Crescent” – Unit 2, 71 Lothian Crescent, Dundee, DD4 0HU.
- North East - The Shell Filling Station, Kingsway East Service Station was demolished between the 2013 and 2014 Retail Surveys.

## 15. Description of the Information Collected in the Retail Survey

Information Collected	Description of the Information Collected
Fascia	The name displayed in the shop frontage.
Address and Postcode of the retail unit	The address of the property. This is a copy of the address from the Corporate Address Gazetteer (CAG).
UPRN	The national Unique Property Reference Number (UPRN) taken from the Corporate Address Gazetteer (CAG). This information allows the shop to be displayed spatially.
Use	A free text written description of the type of retailer i.e. grocer, newsagent etc.
Classification	Whether the unit is trading in comparison or convenience goods, is being used for non-retail purposes or is vacant.
Floor Space	<p>The total enclosed floor area of the store including space used for storage, handling goods, own production (e.g. butchering and bread making), administration, staff rooms, corridors, plant rooms, cloakrooms and amenity rooms.</p> <p><i>All floor space is estimated from available sources and not the results of precise measurements within the units.</i></p>
Location	<p>The location of the retail unit within the local plan defined retailing areas and retail areas defined for policy decisions:</p> <ul style="list-style-type: none"> <li>• Central Area and if it is within the Core Area or Non-Core Speciality Area inside the central area.</li> <li>• District Centre and if it is within the Core Area of the district centres</li> <li>• Corner/Local Shop</li> <li>• Major Out of Centre (Retail Park)</li> <li>• Major Out of Centre (South Road Area)</li> <li>• Major Out of Centre (City Quay)</li> <li>• Major Out of Centre (Others)</li> </ul>

## 16. Full Definitions

Type	Definition
<b>Large Unit</b>	A Large Retail Unit is normally a retail unit with a gross floor space of 800m <sup>2</sup> or more. The purpose of this category is to identify large units, whether a Food Superstore, Retail Warehouse or Department Store etc. wherever they are in the city. They not only include units within Retail Parks and District Centres, but also individual units throughout the City, such as Tesco on Riverside Drive and BHS in the Wellgate Centre.
<b>Food Superstore</b>	A Food Superstore is a single level self-service store of at least 2,500m <sup>2</sup> gross floor space, selling a wide range of food or predominantly food with some non-food goods, and supported by substantial adjacent car parking. Car parking should be adjacent to the unit however it does not necessarily have to be on the same level or solely for a unit's exclusive use. The floor space referred to is a gross figure, which relates to the whole area of the store, including the selling, storage and checkout areas.
<b>Retail Warehouse</b>	A large single level individual retail unit with gross floor space generally greater than 1,000m <sup>2</sup> . It caters mainly for car borne customers and is supported by car parking provision. Please note that some retail units with a gross floor space less than 1,000m <sup>2</sup> can be classified as Retail Warehouses. This occurs if the unit was originally given planning permission to operate as per the rest of the definition above and the retail unit is in a retail park with other retail warehouses.
<b>Retail Park</b>	A Retail Park consists of a group of three or more non-food warehouses, which may be supplemented by a food superstore. A retail park will be situated on a single integrated site with shared car parking usually in an edge-of-centre or off-centre location.
<b>Managed Shopping Centre</b>	A Managed Shopping centre is an enclosed, purpose built group of retail outlets, usually covered with a roof. It comprises predominantly of outlets selling comparison goods, but in addition will often have restaurants and/or fast-food outlets, along with dedicated car parking and toilet facilities. It is usually managed in terms of maintenance and cleaning, security, opening times and the type of outlets that are permitted to locate there.

### 17. List of Large Occupied Retail Units

Please note the table below details large retail units which are classified as comparison or convenience. The floor space of the retail units is measured in square metres.

Fascia	Use	Classification	Floor Space (Sq.m)	Location	UPRN	Address	Postcode
