## What would improve Community Living where you live?

## What people said would improve Community Living.

Speed restrictions on roads.

I feel that there should be community wardens at night especially during the winter months.

More police to stop youths meeting and causing noise and litter.

More ease in getting G.P./ nurse appointments locally.

Better local well-being and mental health services.

I would like to see more street lighting in certain areas of my area to maintain community safety.

A more diverse range of affordable community activities.

## What would improve Community Spaces where you live?

## What people said would improve Community Spaces.

More benches or picnic areas.

Less cars, less pollution.

Community Centre or hub, affordable activities for families and individuals.

I would love to see more areas of natural habitats in my area.

Increase in park maintenance for young families to use, too much areas now left to grow weeds and long grass.

There is not as big a range of indoor space for play and recreation as there is in some other areas.

Low traffic/curb cars use to create places that are attractive to walk, wheel and cycle.

## What people said would improve Community Spirit.

Community Centre open during day and evening to allow residents to meet with each other, socially.

Perhaps having some sort of community projects that everyone is encouraged to participate in.

Have street party allowances to help build community spirit.

Increasing the opening hours of community facilities such as the library.

Community newsletter with news of forthcoming events - via a printed paper or website.

We were just getting a space for tea and a chatter when this stopped because of Covid. Hopefully this will start up again soon.

Coming together to make communal spaces more attractive and not just for children.

## What would improve Community Support where you live?

## What people said would improve Community Support.

A lot of elderly people live here who are not all on internet. I would like more written surveys like this one for them.

I have no idea where to get support or advice face to face only online.

Better communication. No idea what mental health support is available in the Ferry. First stop would be doctors.

Access to impartial, low-cost or free legal and financial advice. Better mental health provision.

Easier access to care and well-being services when required.

I think just raising awareness of the help available. There are a lot of hidden difficulties but there is stigma due to this being perceived as a "good area" where these things don't happen.

There are buildings which could be used for providing community support but the cost of hiring these makes this difficult.

What would improve Community Travel where you live?

What people said would improve Community Travel.

There is no bus service along Dundee Road into Broughty Ferry or Monifieth. Many of the residents are elderly and do not drive, it leaves us isolated.

Bike lanes are often an afterthought, and should be more than a painted line on the road.

Make it safe for people to cycle safely and it will also benefit everyone's health from reduced emissions and exercise.

A local half hourly bus service to Broughty Ferry. Or even a bus shelter in Brook Street would help.

I am elderly cannot cycle and now I cannot walk for fear of being knocked over by cyclists, I can't shop local as can't get parked.

Bus stops closer to home.

I think more pedestrian crossings; zebra crossing or islands are needed so that the public are able to cross roads more safely. Particularly Balgillo Road where speeding is an issue.

More effort to encourage walking and or cycling to school might help as would more traffic management.
