TREE REPLACEMENT NOTICES SECTION 168

1.

Our Reference: **04/00005/TREE**

Address: **Woodcroft, 69 Dundee Road, Broughty Ferry, Dundee, DD5 1NA**

Reason for issuing notice:

- On or around November 2003, 2 Corsican Pine, 3 Evergreen Oak, 1 Beech, 1 Sycamore, 1 Yew and 9 other conifer trees situated in the West Ferry Conservation Area (1997) were removed in contravention of Section 172 of the Act. Under Section 174 of the Act the owner of the land is under a duty to plant another tree. It appears to the Council that this duty has not been complied with.

The owners undertook the removal of these trees without the benefit of a tree survey. By letter dated 30 December 2003 the Council advised the owners of the land that within 2 months they had to replant 8 trees of a given size and species. The owners did not comply. The Council feels that the replanting of these trees will enhance and preserve the character and appearance of this particular Conservation Area.

Notice effective: 1 October 200

Status: Complied

2.

Our Reference: **05/00039/TREE**

Address: **The Lodge, 4 Grosvenor Road, Dundee, DD2 1LF**

Reason for issuing notice:

- On 1st July 2004 information was received from a member of the public regarding the health of trees situated within the West End Suburbs Conservation Area. Following investigations by the Council's Forestry Officer the Council considers that 37 mature trees have been wilfully destroyed in contravention of Section 172 of the Act, as on inspection it was discovered that holes had been drilled into the base of these trees. Samples were taken from the trees and testing was arranged with the Arboricultural Advisory and Information Service. However, they considered it unlikely that anything meaningful could be obtained from undertaking chemical analysis, although they did state "it is curious to note that several of the sample showed good extension growth until 4 or 5 years ago. This suggests that something may have started the decline at that time and that the trees were able to hang on until another damaging event occurred."

Under Section 174 of the Act, if a tree is destroyed, in contravention of Section 172 of the Act the owner of the land is under a duty to plant another tree of an appropriate size and species at the same place as soon as

he reasonably can. The owner has failed to comply with this duty. The Forestry Officer has recommended that all trees should be replaced and has specified the appropriate size and species. The Council considers that the replanting of the 37 trees will enhance and preserve the character and appearance of this particular Conservation Area.

Notice effective: 30 April 2005

Status: Direct Action taken by Council to comply with Notice
