

**REPORT TO: NEIGHBOURHOOD SERVICES COMMITTEE – 21 AUGUST 2017**

**REPORT ON: PARTICIPATION REQUESTS**

**REPORT BY: EXECUTIVE DIRECTOR OF NEIGHBOURHOOD SERVICES**

**REPORT NO: 243-2017**

## **1 PURPOSE OF REPORT**

1.1 The purpose of this report is to seek agreement for a framework under which Dundee City Council will implement Part 3 of the Community Empowerment (Scotland) Act 2015 which introduced Participation Requests.

## **2 RECOMMENDATION**

2.1 It is recommended that members approve the proposed protocol outlining how Community Bodies may make a request. (See Appendix A).

2.2 Agree to the scoping exercise being undertaken to identify what participation processes already exist across service areas in DCC and the development of a Participation Strategy.

2.3 Establish an online system to provide information on participation requests and provide a mechanism for requests to be administered.

2.4 Identify a lead representative from each service area who will be responsible for providing detailed information to the Community Empowerment Officer in order that timeous replies, in line with timescales set by Scottish Government, can be sent in response to valid requests.

2.5 Establish a training programme for relevant DCC staff.

## **3 FINANCIAL IMPLICATIONS**

3.1 The financial implications of each participation request will require to be contained within the existing resources of each relevant service area. Any changes to outcome improvement/service design will need to be considered and costed on a case by case basis and will form part of the assessment process.

## **4 BACKGROUND**

4.1 Part 3 of the Act introduces a new right for community bodies to request a dialogue with a public authority to put forward their ideas on how public services could be changed and to improve outcomes for their communities.

4.2 Section 2.3 of Scottish Government Guidance makes it clear that the introduction of Participation Requests is designed to help groups highlight community needs and issues, and become involved in change or improvements which could include community bodies taking on delivery of services. They are not intended to replace good quality existing community engagement or participation processes, where they already function well, but as an opportunity for communities to establish dialogue with public authorities, where there are no existing mechanisms for them to be recognised or be heard.

4.3 An organisation can make a Participation Request if it is a:-

- Community controlled body (has a constitution, has a defined community, is open to any community member, has a majority of members from that community, has a purpose for the benefit of that community).
- Community body without a written constitution (providing the public service authority is satisfied it meets the requirements of the Community Empowerment (Scotland) Act 2015).
- Community of interest (people sharing an interest or characteristic)
- Community Council
- A community body or class of community bodies designated by order of Scottish Ministers

4.4 The Council must agree to the Participation Request unless there are reasonable grounds for refusal. If it refuses the request, it must explain the reasons. At the end of the process, the

Council must publish a report on whether the outcomes were improved and how the community body contributed to that improvement.

- 4.5 Dundee City Council already has well established community engagement structures which include participation by community groups, examples of which include:-

Local Community Planning Partnerships, Neighbourhood Representative Groups and Community Councils, Tenant & Residents Groups, Parent Councils and Parent Teacher Associations, Dundee Youth Council and Forums and Local Management Groups.

- 4.6 Scottish Government Guidance highlights the need to identify what participation processes already exist across all service areas. A scoping/mapping exercise of DCC participation processes will be undertaken. This will form the basis of a Dundee City Council Participation Strategy which will allow community groups to identify what local mechanisms already exist and signpost how groups can become involved.

- 4.7 The Council has a Community Empowerment Officer who will be the initial contact for Participation Requests. It is proposed that each service area will identify a lead representative who will be responsible for detailing how the service area intends to establish or amend an outcome improvement process and how they intend to involve the community controlled body.

- 4.8 The Council has 30 working days to assess any request and must agree unless there are reasonable grounds for refusal. The Council must also detail how any outcome improvement process will work and at the end of the process publish a report summarising the process and detailing whether the outcomes were improved and how the community body contributed to that improvement. If more than one public service body is involved the assessment time can be increased to 45 working days. If the request is complex, public authorities may agree an extension. Annual reports will be prepared for Committee and Scottish Government.

- 4.9 The Act details a list of matters that the local authority must consider when reaching its decision on any Participation Request. Any Participation Request should be likely to promote or improve:-

- Economic development
- Regeneration
- Public Health
- Social Wellbeing
- Environmental Wellbeing
- Reduce inequalities of outcome which result from social and economic disadvantage
- Any other benefits that may arise

The Community Participation Body must:-

- Specify the outcome that the community participation body wants to improve
- Provide reasons why the community participation body should participate in an outcome improvement process
- Provide knowledge, expertise and experience the community participation body has in relation to the outcome
- Provide an explanation of how the outcome will be improved because of the involvement of the community participation body

## 5 POLICY IMPLICATIONS

- 5.1 This Report has been screened for any policy implications in respect of Sustainability, Strategic Environmental Assessment, Anti-Poverty, Equality Impact Assessment and Risk Management.

An Equality Impact Assessment is attached.
