

Riverside Park

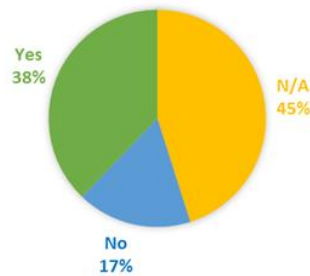

Question 3:

SHOULD THERE BE BIODIVERSITY GRASSLAND/NATURALISED GRASSLAND IN THIS GREENSPACE?

Question 4:

IS THE LOCATION OF THE PROPOSED BIODIVERSITY GRASSLAND / NATURALISED GRASSLAND IN THE RIGHT PLACE?

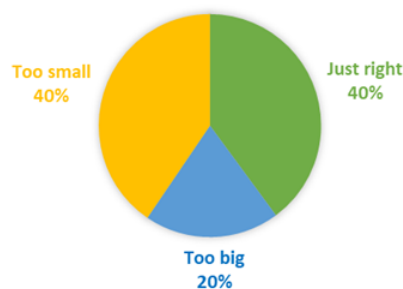

Question 5:

If it is not in the right place, please let us know where would be more appropriate. If you have no comment skip to the next question. Total responses = 5

Extend a strip all the way along the railway fence to help enhance the wildlife corridor x1, I would expand the existing areas x1, More areas could be added around the edges of the playing fields. Would also be good to have pathways created around the edge, even just bark pathways so that people can walk through and enjoy this lovely park and link up the esplanade with Magdalene x1, this really should not be cut at all except for once in spring time x1, Why can't the area managed for biodiversity between Riverside Drive and the railway be continued westwards? X1

Question 6:

WHAT DO YOU THINK ABOUT THE SIZE OF THE PROPOSED BIODIVERSITY GRASSLAND / NATURALISED GRASSLAND AREA FOR THIS GREENSPACE?

Note:

- Question 4 and 5 – N/A refers to those who chose not to answer the question
- Question 6 – N/A stripped out to give picture of those that did answer
