

Scotland's Census

Scotland's Census is now live and you may have received your invitation letter through the post, and hopefully have completed your Census.

We have officially entered the "Act Now" phase which means you can go ahead and complete your Census if you have not already done so. This is a very exciting time for Local Authorities, Third Sector organisations and citizens across Scotland to get a true picture of Scotland's population and shape society.

National Records Scotland will be hosting a variety of roadshows across Scotland in the coming days to create the awareness of the Census and answer and questions citizens may have.

Staff from the NRS / Comms & Engagement Team will be available at colourful stands near shopping centres / shopping areas. The aim is to create a buzz and excitement around all things Census related and be on standby to answer any questions and signpost citizens to where they can get support to help them complete if they are facing any barriers to complete.

We would like to ask you to promote / share these events with your networks & partners, if you are listed as one of the areas where the roadshows will take place. Please see a list below of where these will be and the relevant dates & timings, please do come and visit the team at the stand in your area:
