

Stobsmuir Park

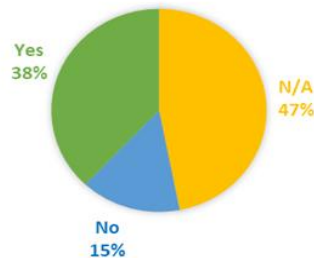

Question 3:

SHOULD THERE BE BIODIVERSITY GRASSLAND/NATURALISED GRASSLAND IN THIS GREENSPACE?

Question 4:

IS THE LOCATION OF THE PROPOSED BIODIVERSITY GRASSLAND / NATURALISED GRASSLAND IN THE RIGHT PLACE?

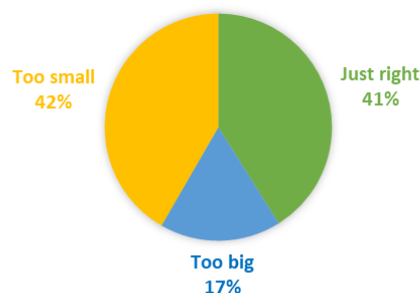

Question 5:

If it is not in the right place, please let us know where would be more appropriate. If you have no comment skip to the next question. Total responses = 8

Could be a much larger area. The slopes near both Ponds could also remain uncut x1, could extend further south along path parallel to Stobsmuir Road x1, Extend a strip along the w side of the pond that sits near Pitkerro road x1, area near the play park should be kept for picnics etc with a small biodiversity at the top of this. more land could be left, such as around the edges of the rose garden area (outside the path) and perhaps the middle of the triangle x1, should be larger than it is, with paths cut through for access. Also banking on south pond should be left for biodiversity. X1, the area at the top of the park on the other side of the rose garden would make more sense x1, The large area next to play park should be mowed to allow necessary outdoor play for children. X1, It is only a tiny area under the trees, a much larger area should be used X1

Question 6:

WHAT DO YOU THINK ABOUT THE SIZE OF THE PROPOSED BIODIVERSITY GRASSLAND / NATURALISED GRASSLAND AREA FOR THIS GREENSPACE?

Note: Question 4 and 5 – N/A refers to those who chose not to answer the question. Question 6 – N/A stripped out to give picture of those that did answer
