# **Dundee City Archives: Subject Index**

This subject index provides a brief overview of the collections held at Dundee City Archives. The index is sorted by topic, and in some cases sub-topics. The page index on the next page gives a brief overview of the subjects included.

The document only lists the collections that have been deposited at Dundee City Archives. Therefore it does not list records that are part of the Dundee City Council Archive or any of its predecessors, including:

- School Records
- Burial Records
- Planning Records
- Poorhouse Records

- Licensing Records
- Minutes
- Reports
- Other council Records

If you are interested in records that would have been created by the council or one of its predecessors, please get in contact with us to find out what we hold.

This list is update regularly, but new accessions may not be included. For up to date information please contact us.

In most cases the description that appears in the list is a general description of the collection. It does not list individual items in the collections. We may hold further related items in collections that have not been catalogued. For further information please contact us.

Please note that some records may be closed due to restrictions such as data protection. Other records may not be accessible as they are too fragile or damaged. Please contact us for further information or check access restrictions.

#### How do I use this index?

The page index on the next page gives a list of subjects covered. Click on the subject in the page index to be taken to main body of the subject index. The description and covering dates should be enough to work out if the items/collection is likely to be of any use/interest to you.

Alternatively you can use the search function to do a keyword search to find any descriptions listed in the index.

#### How do I access the records?

The final column contains a reference number for the collection. Please make a note of this reference. You can then contact us to arrange a visit to the archives to view the records. If the collection is large, you may need to narrow down the items you are interested in. Where available, we will send you a catalogue which lists the items in the collection so that you can make your selection.

### **Visiting the Archives**

Opening Hours: Monday to Friday: 9.30am to 1pm and 2pm to 4.30pm

We have limited space in our search room so users should make an appointment if possible. If you need disabled access please let us know before your visit. The Archives entrance is at 14 City Square. When you arrive please go to the reception at 20 City Square – on the right side of the square under the City Chambers. Tell the receptionist that you are visiting the Archives.
