1. Introduction

This profile report is for The Ferry Local Community Planning Partnership (LCPP) / Ward and its community areas. The report presents statistical information from the 2020 Scottish Index of Multiple Deprivation (SIMD).

The SIMD is the Scottish Governments official tool for identifying places in Scotland suffering from deprivation. The 2020 SIMD was originally published on 28th January 2020. After identifying an error data used to compile the SIMD, the Scottish Government published a revised version of the 2020 SIMD in June 2020.

This document reports on the SIMD 2020 data published in June 2020. Where available, data is broken down to community areas within LCPP/Wards to allow differences within each community area to be highlighted.

The Scottish Index of Multiple Deprivation (SIMD) is the Scottish Governments official tool for identifying places in Scotland suffering from deprivation. Deprivation in this context refers to the range of problems that arise due to the lack of resources or opportunities covering health, safety, education, employment, housing, access to services and financial aspects.

- Scotland is split into 6,976 small areas, called 'data zones', with roughly equal population.
- The Scottish Government look at indicators to measure the different sides of deprivation in each data zone, like pupil performance, travel times to the GP, crime, unemployment and many others.
- These 38 indicators of deprivation were grouped into 7 types, called 'domains'.
- The 7 domains are combined into one SIMD, ranking each data zone in Scotland from 1 (most deprived) to 6,976 (least deprived).
- Focusing on small areas shows the different issues there are in each neighbourhood. These could be poor housing conditions, a lack of skills or good education, or poor public transport.

The community areas used in this profile document are geographical areas that were developed by Dundee City Council, Neighbourhood Services and they split Dundee City into 54 geographical areas. In the majority of cases the raw data used to populate this profile is only produced at data zone level. Data zones are much larger geographical areas than the community areas meaning that one data zone can be split across multiple community areas or LCPP/Wards. To analyse and display the data at community area level, work is undertaken to proportion out the data zones to assign the relevant parts that fall within each community area or LCPP/Ward.

Dundee City Total	21	21	20	24	14	14	14	11	69	70

Source: Scottish Government SIMD 2016 and SIMD 2020

In the both the SIMD 2016 and 2020, there were **0 data zones** within The Ferry LCPP/ Ward ranked in the 20% most deprived. The number of data zones ranked in the 20% most deprived also increased for Dundee City overall from 69 in the SIMD 2016 to 70 in SIMD 2020.

4. Percentage of the population who live in the 5% and 20% Most Deprived Data Zones

Table 3 shows the percentage of the population in each community area who live in a data zone that is ranked in the 5% and 20% most deprived in the SIMD 2020. It should be noted that the percentage of the population who live in the 5% most deprived data zones will also be counted within the percentage of the population who live in the 20% most deprived data zones.

5. Scottish Index of Multiple Deprivation – Health Domain

The health domain in the SIMD examines rates of mortality, hospital stays related to alcohol and drug misuse, illness, prescription rates for certain conditions and low birth weights. **Table 7** shows the percentage of the population in each community area within The Ferry LCPP/Ward who live in a data zone that is ranked within the 20% most health deprived as reported in the SIMD 2016 and 2020.

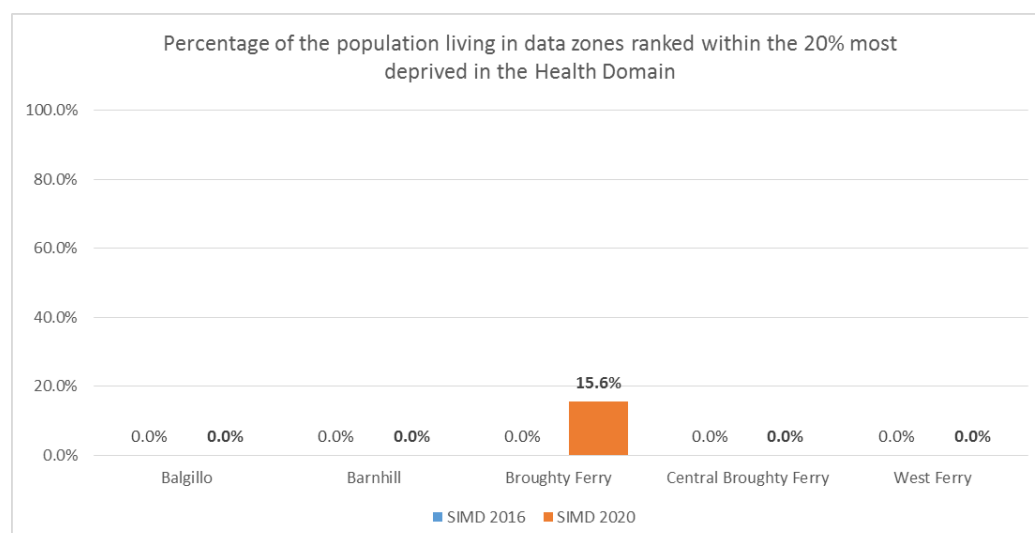

The 2020 SIMD reported that Broughty Ferry (15.6%) is the only community area within The Ferry LCPP/Ward to have a proportion of the population who live in a data zone ranked in the 20% most deprived in the health domain. At an overall level 2.9% of the population who live in The Ferry LCPP/Ward live in a data zone ranked in the 20% most deprived in the health domain. This is much lower than the Dundee City percentage which stands at 36.6%.

Table 7: Percentage of the population living in the 20% Most Deprived Data Zones of the Health Domain (SIMD 2016 and 2020)

Source: Scottish Government, Scottish Index of Multiple Deprivation 2016 and 2020
Community Area Analysis produced by DCC Information and Research Team

In 2016, 0% of the population living in community areas within The Ferry LCPP/Ward lived in a data zone ranked in the 20% most deprived in the health domain. This changed in 2020 with 15.6% of the population in Broughty Ferry community area living in a data zone ranked in the 20% most deprived in the health domain. Overall, the percentage of the population in The Ferry LCPP/Ward living in data zones ranked in the 20% most deprived in the health domain increased from 0% in 2016 to 2.9% in 2020. At a Dundee City level the percentage increased from 33.5% in 2016 to 36.6% in 2020.

6. Scottish Index of Multiple Deprivation – Education Domain

The education domain in the Scottish Index of Multiple Deprivation examines school absences, pupil performance, working age population with no qualifications, FE/HE education rates and unemployed youths (16-19) not in full time education, employment or training.

Table 8 shows the percentage of children in each community area within The Ferry LCPP/Ward that live in a data zone ranked within the 20% most deprived in the education domain in both the 2016 and 2020 SIMD.

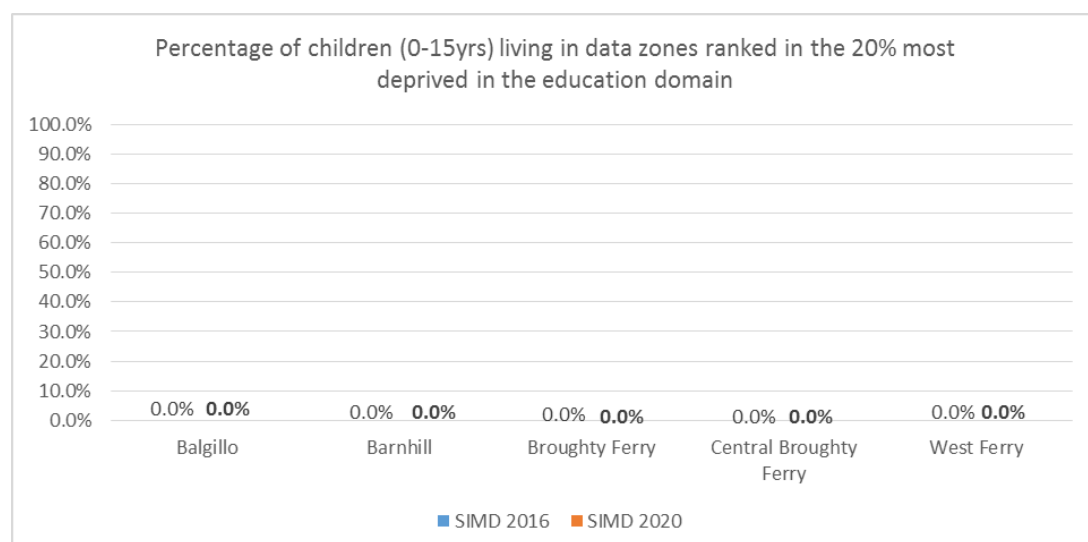

The 2020 SIMD found that there are no children aged 0-15 years within the community areas in The Ferry LCPP/Ward living in data zones ranked in the 20% most deprived in the education domain.

Table 8: Percentage of Children living in data zones ranked in the 20% most deprived in the education domain (SIMD 2016 and 2020)

Source: Scottish Government, Scottish Index of Multiple Deprivation 2016 and 2020
Community Area Analysis produced by DCC Information and Research Team

In both the 2016 and 2020 SIMD, 0% of children in The Ferry LCPP/Ward live in a data zone ranked in the 20% most deprived in the education domain. At a Dundee City level, the percentage of children aged 0-15 years living in data zones ranked in the 20% most deprived in the education domain increased from 45.0% in 2016 to 47.3% in 2020.

7. Scottish Index of Multiple Deprivation – Employment Deprivation

The employment domain in the Scottish Index of Multiple Deprivation examines unemployment claimant counts averaged over 12 months, working age incapacity benefit or employment support allowance recipients and working age severe disablement allowance recipients. **Table 9** shows the percentage of the working age population in each community area within The Ferry LCPP/Ward who live in a data zone ranked in the 20% most deprived in the employment domain as reported in the 2016 and 2020 SIMD.

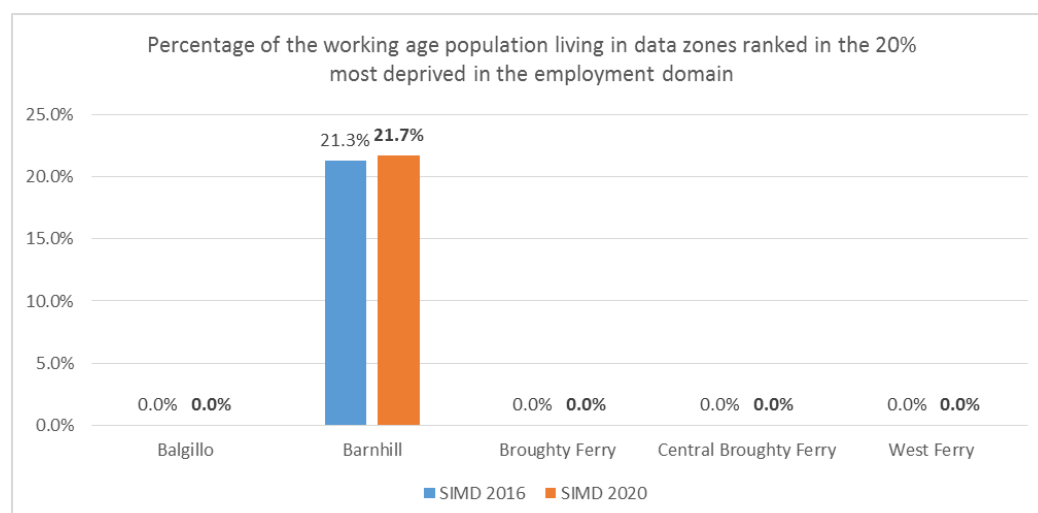

The 2020 SIMD found 21.7% of the working age population in Barnhill live in a data zone ranked in the 20% most deprived in the employment domain. The percentage was 0% in all of the other community areas within The Ferry LCPP/Ward. At an overall The Ferry LCPP/Ward level, 5.3% of the working age population live in a data zone that is ranked in the 20% most deprived in the employment domain. This is much lower than the Dundee City percentage which stands at 36.4%.

Table 9: Percentage of the working age population who live in a data zone ranked in the 20% most deprived in the employment domain (SIMD 2016 and 2020)

Community Area Analysis produced by DCC Information and Research Team

Barnhill is the only community area within The Ferry LCPP/Ward to have a percentage of the working age population living in data zones ranked in the 20% most deprived in the employment domain in both the 2016 and 2020 SIMD. The percentage increased slightly from 21.3% in 2016 to 21.7% in 2020. Overall in both the 2016 and 2020 SIMD around 5% of the working age population in The Ferry LCPP/Ward live in a data zone ranked in the 20% most deprived in the employment domain. At a Dundee City level there was a very slight decrease from 36.9% in 2016 to 36.4% in 2020.

The Scottish Index of Multiple Deprivation also provides a count of the number of employment deprived people in each data zone. The number of employment deprived people is a useful measure as it can show the number of individuals who are classed as being employment deprived in data zones that are not ranked in the 20% most deprived. **Table 10** shows the proportion of the working age population who are classed as employment deprived in the SIMD 2016 and 2020.

The 2020 SIMD reported that all community areas within The Ferry LCPP/Ward have a percentage of their working age population classed as employment deprived. Central Broughty Ferry (7.2%) has the highest percentage of the working age population classed as employment deprived followed by Barnhill (6.1%) and Broughty Ferry and West Ferry (both 5.1%). The percentage is slightly lower in Balgillo at 2.8%. Overall 4.9% of the working age population who live in The Ferry LCPP/Ward are classed as employment deprived. This is lower than the Dundee City percentage which stands at 12.4%.

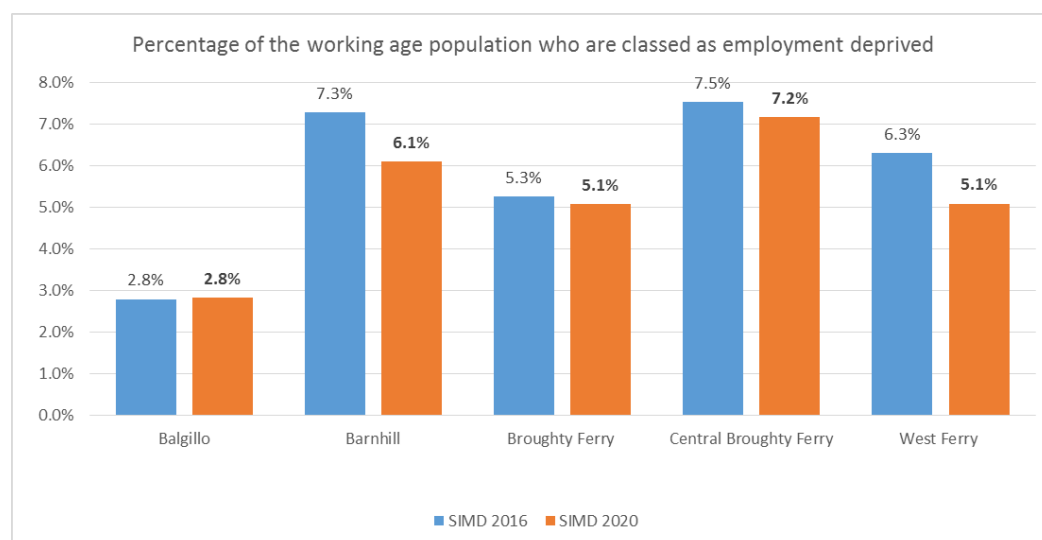

Table 10: Percentage of the population who are classed as Employment Deprived in (SIMD 2016 and 2020)

% of the working age population who are classed as employment deprived		
Community Area	2016	2020
Balgillo	2.8%	2.8%
Barnhill	7.3%	6.1%
Broughty Ferry	5.3%	5.1%
Central Broughty Ferry	7.5%	7.2%

Based on the count of employment deprived people in each data zone

Source: Scottish Government. Scottish Index of Multiple Deprivation 2016 and 2020

Community Area Analysis produced by DCC Information and Research Team

When comparing the 2016 and 2020 SIMD, Balgillo is the only community area within The Ferry LCPP/Ward where the percentage of the working age population classed as employment deprived remained the same in both SIMD publications. Very slight decreases occurred in the other community areas. At overall The Ferry LCPP/Ward level, the percentage of the working age population classed as employment deprived decreased from 5.4% in 2016 to 4.9% in 2020. There was also a decrease at Dundee City level from 14.1% in 2016 to 12.4% in 2020.

8. Scottish Index of Multiple Deprivation – Income Domain

The income domain in the Scottish Index of Multiple Deprivation examines adults and children in Income Support or Income-based Employment Support Allowance households, adults in Guarantee Pension Credit households, adults and children in Job Seekers Allowance households and adults and children in Tax Credit Families.

Table 11 shows the percentage of the population in each community area within The Ferry LCPP/Ward who live in a data zone ranked in the 20% most deprived in the income domain as reported in the 2016 and 2020 SIMD.

The 2020 SIMD found that 15.6% of the population in Broughty Ferry community area live in a data zone ranked in the 20% most deprived in the income domain. The percentage is 0% in all of the other community areas. In The Ferry LCPP/Ward 2.9% of the population live in a data zone ranked in the 20% most deprived in the income domain, this is much lower than the Dundee City percentage which stands at 36.6%.

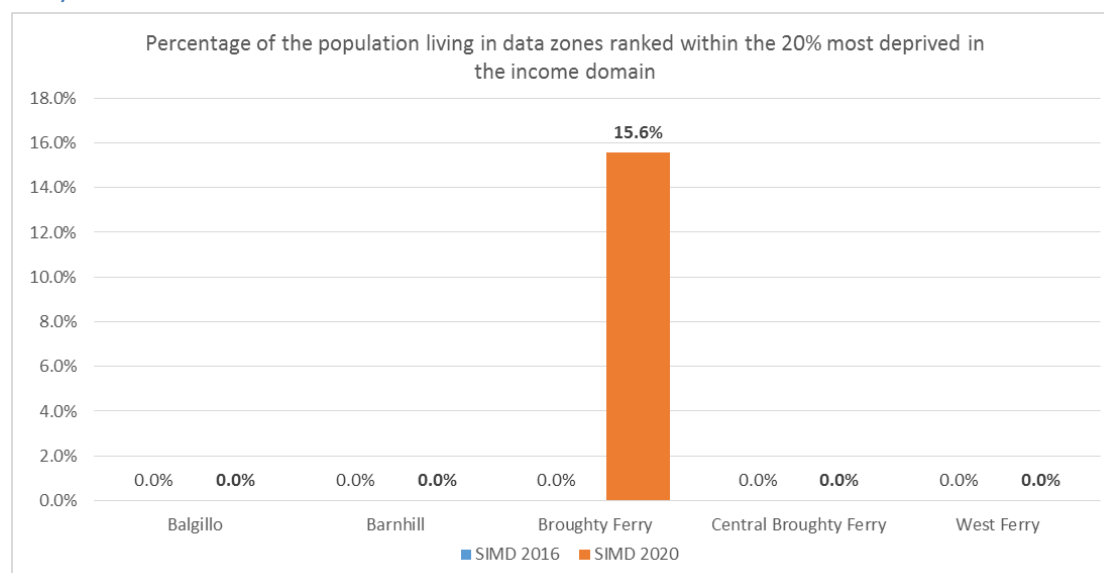

Table 11: Percentage of the population who live in a data zones ranked in the 20% most deprived in the income domain (SIMD 2016 and 2020)

% of the population who live in a data zone ranked in the 20% most deprived in the income domain		
Community Area	2016	2020

Figure 7: Percentage of the population living in data zones ranked within the 20% most deprived in the income domain (SIMD 2016 and 2020)

Source: Scottish Government, Scottish Index of Multiple Deprivation 2016 and 2020
Community Area Analysis produced by DCC Information and Research Team

When comparing the 2016 and 2020 SIMD, Broughty Ferry community area experienced an increase in the percentage of the population living in data zones ranked in the 20% most deprived in the income domain from 0% in 2016 to 15.6% in 2020. The percentage stood at 0% for all other community areas in both the 2016 and 2020 SIMD. At The Ferry LCPP/Ward level the percentage of the population living in data zones ranked in the 20% most deprived in the income domain increased from 0% in 2016 to 2.9% in 2020. There was an increase at Dundee City level from 35.7% in 2016 to 36.6% in 2020.

For each data zone the Scottish Index of Multiple Deprivation (SIMD) produces a count of individuals classed as income deprived. This is people who are claiming key benefits, children in low income households and families dependant on tax credits. **Table 12** shows the percentage of the population in each community area who are classed as income deprived. The number of income deprived people is an attempt to identify individuals who are income deprived despite not living in a data zone that is ranked within the 20% most deprived.

All community areas within The Ferry LCPP/Ward have a percentage of their population who are classed as income deprived. The 2020 SIMD found, Central Broughty Ferry had the greatest proportion at 8.8% followed by Broughty Ferry (6.7%), Barnhill (5.7%) and West Ferry (5.2%). The percentage is lowest in Balgillo at 2.4%. Overall in The Ferry LCPP/Ward 5.3% of the population are classed as income deprived, this is much lower than the Dundee City percentage which stands at 16.4%.

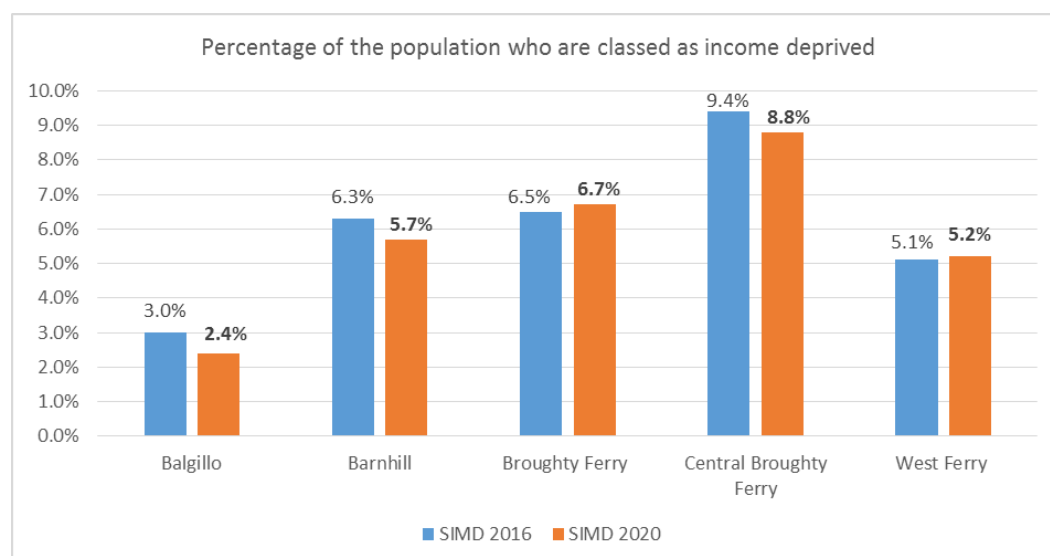

Table 12: Percentage of the population who are classed as Income Deprived (SIMD 2016 and 2020)

% of the population who are classed as Income Deprived		
Community Area	2016	2020
Balgillo	3.0%	2.4%
Barnhill	6.3%	5.7%
Broughty Ferry	6.5%	6.7%
Central Broughty Ferry	9.4%	8.8%

Based on count of income deprived people in each data zone

Source: Scottish Government, Scottish Index of Multiple Deprivation 2016 and 2020

Community Area Analysis produced by DCC Information and Research Team

When comparing the SIMD 2016 and 2020, there was very little change in the percentage of the population who were classed as income deprived. Very slight increases in the percentage of the population who were classed as income deprived occurred in Broughty Ferry and West Ferry. There were decreases of around 1% in Balgillo, Barnhill and Central Broughty Ferry. At The Ferry LCPP/Ward level, the percentage of the population classed as income deprived decreased slightly from 5.7% in 2016 to 5.3% in 2020. At an overall Dundee City level the percentage stood at 16.4% in both the 2016 and 2020 SIMD.

9. Housing Domain

The housing domain in the Scottish Index of Multiple Deprivation focusses on households that are over-crowded and persons in households without central heating.

According to the 2020 SIMD, Central Broughty Ferry (30.9%) and Broughty Ferry (2.0%) are the only community areas within The Ferry LCPP/Ward where a proportion of the population live in a data zone which is ranked in the 20% most deprived in the housing domain. Overall in The Ferry LCPP/Ward around 5% of the population live in a data zone ranked in the 20% most deprived in the housing domain, this is much lower than the overall Dundee City percentage which stands at 45.5%.

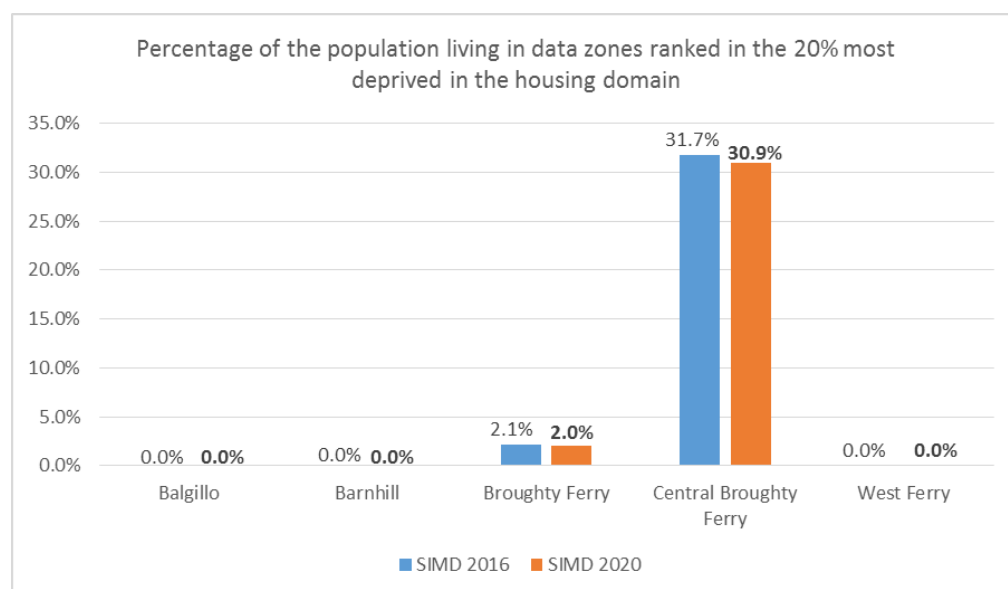

Table 13: Percentage of the population living in data zones ranked in the 20% most deprived in the housing domain (SIMD 2016 and 2020)

Community Area Analysis produced by DCC Information and Research Team

There is very little change when comparing the percentage of the population living in data zones ranked in the 20% most deprived in the housing domain in the SIMD 2016 and 2020. Broughty Ferry and Central Broughty Ferry are the only areas within The Ferry LCP/Ward where a percentage of the population live in a data zone ranked in the 20% most deprived in the housing domain. Both of these community areas experienced a slight decrease in 2020.

Around 5% of the population who live in The Ferry LCP/Ward live in a data zone ranked in the 20% most deprived in the housing domain, this is consistent with the 2016 SIMD. At Dundee City level the percentage of the population living in data zones ranked in the 20% most deprived in the housing domain increased slightly from 45.3% in 2016 to 45.5% in 2020.

10. Crime Domain

Table 14 shows the percentage of the population in each community area that live in a data zone ranked in the 20% most deprived in the crime domain as reported in the 2016 and 2020 SIMD. The SIMD crime domain does not include all types of crime or offence recorded by the police. Certain crimes have been excluded because of data quality issues, or because they are less meaningful in terms of deprivation at a neighbourhood level.

In the SIMD 2020, there was one data zone within The Ferry LCP/Ward which was ranked within the 20% most deprived in the crime domain. Broughty Ferry (2.0%) and Central Broughty Ferry (30.9%) were the only community areas within The Ferry LCP/Ward where a percentage of the population lived in a data zone ranked in the 20% most deprived in the crime domain.

Overall in The Ferry LCP/Ward 4.9% of the population live in a data zone ranked in the 20% most deprived in the crime domain. At Dundee City level 33.1% of the population live in a data zone that is ranked in the 20% most deprived in the crime domain.

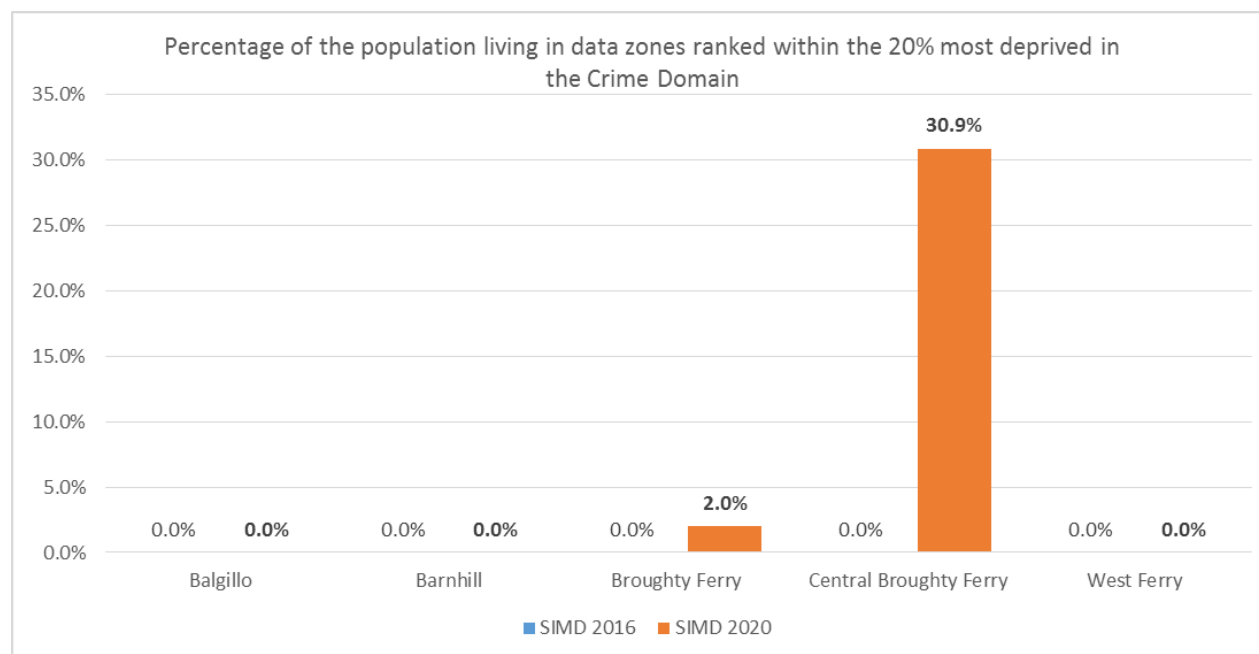

Table 14: Percentage of the population living in the 20% most deprived data zones in the crime domain (SIMD 2016 and 2020)

% of the population living in data zones ranked within the 20% most deprived in the Crime Domain		
Community Area	2016	2020
Balgillo	0.0%	0.0%
Barnhill	0.0%	0.0%
Broughty Ferry	0.0%	2.0%

Central Broughty Ferry	0.0%	30.9%
West Ferry	0.0%	0.0%
The Ferry LCPP/Ward	0.0%	4.9%
Dundee City	30.9%	33.1%
